Promo Slider

PUQ Page Manager module **WHMCS**

Order now | Download | Community

The Promo Slider widget renders an image carousel with text overlays and call-to-action buttons. Each slide can have a heading, description, foreground image, background image, and a button link. Ten visual styles are available, including cinematic, parallax, and split-screen layouts.

Settings

Layout

Setting	Description
width	Widget container width (e.g. `100%`, `1200px`)
margin-top	Top margin of the widget block
margin-bottom	Bottom margin of the widget block
Style	Visual style template (`puq`, `puq-cards`, `puq-cinema`, `puq-glass`, `puq-hero`, `puq-kenburns`, `puq-magazine`, `puq-minimal`, `puq-neon`, `puq-split`)
height	Slider height (e.g. `500px`)

Background & Options

Setting	Description
Background image	URL of the background image for the widget container
Background color	Background color of the widget container
Disable Navigation Buttons	Hide the previous/next arrow buttons on the slider
Disable Shadow	Remove the drop shadow from the widget container
Disable Radius top	Remove top corner rounding
Disable Radius bottom	Remove bottom corner rounding
Disable Background	Remove the background panel entirely
Full width	Stretch the widget to the full page width

Slides

Use the **+** button to add slide entries. Each slide has the following fields:

Field	Description
Header	Heading text for the slide
Header size	Font size selector for the heading
Header color	Color of the heading text
Description	Body text or subtitle for the slide
Description size	Font size selector for the description
Description color	Color of the description text
IMG	URL of the foreground image displayed on the slide
Background IMG	URL of the background image for the slide
Button text	Label for the call-to-action button
Button URL	Destination URL for the call-to-action button

Slides can be reordered with the up/down arrows and removed with the delete button.
