Timeline

PUQ Page Manager module **WHMCS**

Order now | Download | Community

The Timeline widget renders a chronological sequence of events. Each entry has a date, an icon, a dot color, a title, and a description. The timeline supports vertical and horizontal layouts with an optional alternating sides mode.

Settings

Content Settings

Setting	Type	Default	Description

layout	select	`vertical`	Timeline orientation: `vertical` or `horizontal`
alternate	checkbox	off	Alternate event cards between left and right sides of the timeline axis

Color Settings

Setting	Type	Default	Description
color_1	color	—	Event title text color
color_2	color	—	Event description text color
color_3	color	—	Event date text color
color_4	color	—	Timeline line and dot color
color_5	color	—	Event card background color
color_6	color	—	Icon and accent color

Header

Setting	Type	Default	Description
header	text	`Our History`	Heading text displayed above the widget
header_text_color	color	`#000000`	Color of the header text
disable_header	checkbox	off	Hide the header entirely

Items

Each timeline entry is a row in the visual editor with the following fields:

Field	Description
date	Date or time label for the event (e.g. `2024`, `January 2025`)
icon	Font Awesome icon class for the timeline dot (e.g. `fas fa-star`)
color	Dot color for this specific entry (overrides the global dot color)

Field	Description
title	Title of the event
description	Description text for the event (stored base64-encoded)

Items can be added, removed, and reordered using the visual editor.

Layout Settings

Setting	Type	Default	Description
width	text	—	CSS width of the widget container (e.g. `800px`, `100%`)
margin_top	text	—	CSS top margin (e.g. `20px`)
margin_bottom	text	—	CSS bottom margin (e.g. `20px`)
style	select	`puq`	Visual style template
background_image	text	—	URL of the background image
background_color	color	`#ffffff`	Background color of the widget container
disable_background_shadow	checkbox	off	Remove the drop shadow from the container
disable_background_radius_top	checkbox	off	Remove the top border radius from the container
disable_background_radius_bottom	checkbox	off	Remove the bottom border radius from the container
disable_background	checkbox	off	Disable the background container entirely
full_width	checkbox	off	Stretch the widget to the full page width
