Add VPN account

Business-VPN module **WHMCS**

Order now | Download | FAQ

This is how the page for adding a new VPN account looks like.

Each VPN account has a unique client ID, the ID is generated according to the scheme <user_id>-<service_id>-Manually entered value. <user_id>-<service_id> are generated automatically by module. You can modify manually the last part.

To create a new account, the client must enter the following.

Username, Password, Select an available IP address from the dropdown list. Then click the **Add VPN account** button.
