

# Add VPN account

## Business-VPN module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

This is how the page for adding a new VPN account looks like.

Each VPN account has a unique client ID, the ID is generated according to the scheme <user\_id>-<service\_id>-Manually entered value. <user\_id>-<service\_id> are generated automatically by module. You can modify manually the last part.

### Add VPN account

 Username:	<input type="text" value="1-4806- Enter username"/>
 Password:	<input type="password" value="Enter password"/>  Generate
 IP address:	<input type="text" value="172.16.205.9"/> 
	

To create a new account, the client must enter the following.

Username, Password, Select an available IP address from the dropdown list. Then click the **Add VPN account** button.
