

Synchronization income invoices

Income invoices are automatically synchronized during each daily WHMCS crontab job.

For the purpose of compulsory synchronization of income invoices.

Go to the **"Tools"** menu item and click **"Synchronization income invoices"**.

As a result, a table with all accounting systems and synchronization parameters will appear

The screenshot shows a sidebar menu on the left with the following items: Dashboard, Reports, Documents, Commitments, Counterparties, Accounting systems, Tools, Reindex commitment dates, Reindex agreements dates, Synchronization income invoices (highlighted with a red box), and About us. To the right of the sidebar is a table with the following data:

ID	Name/Description	Type	Before synchronization	Added	After synchronization
7	[REDACTED]	apiWHMCS	287	1	288
6	[REDACTED]	apiWHMCS	18	0	18
