Product Configuration

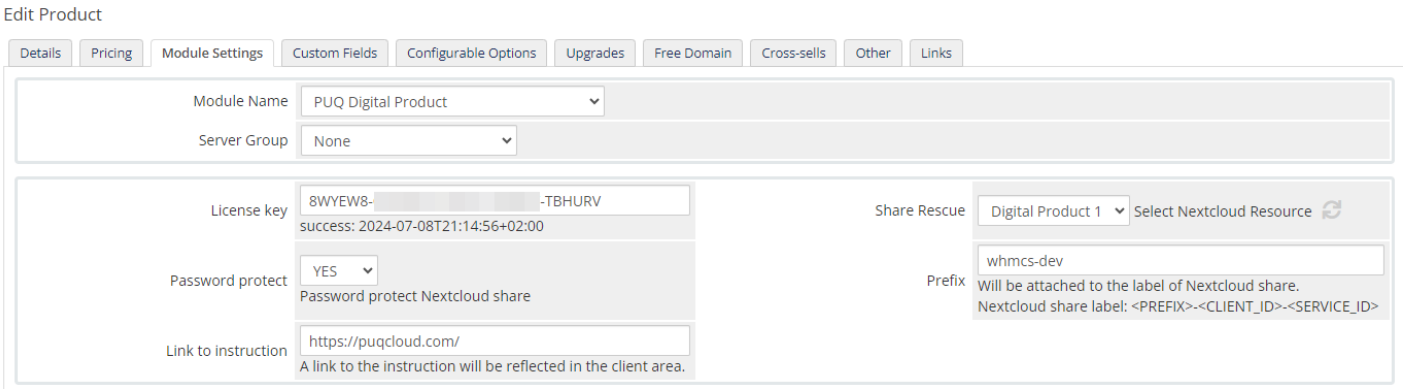
Digital Product module WHMCS

Order now | Download | FAQ

Create a new Products/Services

```
System Settings->Products/Services->Create a New Product
```

In the **Module settings** section, select the **"PUQ Digital Product"** module



- **License key:** A pre-purchased license key for the **"PUQ Digital Product"** module. For the module to work correctly, the key must be active
- **Share Rescue:** Select the folder on the Nextcloud server that you offer as a Digital Product for downloading by the client after payment
- **Password protect:** If you want to protect the client's individual share with a password then select YES
- **Prefix:** The prefix is required to identify the client's shared link. An entry with the structure <PREFIX>-<CLIENT_ID>-<SERVICE_ID> will be added to the description of the shared link on the nextcloud server to facilitate searching if necessary
- **Link to instruction:** Link to the instruction, if filled out, it will be reflected in the client area
