

Service/Product configuration

Digital Product module **WISECP**

[Order now](#) | [Download](#) | [FAQ](#)

If you do not have a **Service Group** where you want to place the new service, you need to create a new **Service Group**

1. Log in to the administrative area of your **WISECP**.
2. Create New Service Group

Go to

Services -> Service Management -> Add Group

The screenshot displays the WISECP administrative interface. At the top, there is a dark blue header with the WISECP logo, a 'Smart Search' bar, and a navigation menu with items: Settings, Orders (5), Billing, Clients, Tools, WAnalytics, Support, Services, Site Management, Languages, and Help. The 'Services' menu item is highlighted, and a dropdown menu is open, listing: Service Management, Hosting Management, Domain Name Registration, Software Services, Add Group (underlined in red), Module Settings, Addons, and Order Requirements. Below the header, the dashboard shows two widgets: 'Today Sales (Turnover)' for 'Yesterday' with a value of €0, and 'Current Cash' for 'Current Month Expenses' with a value of €0. A banknote icon is visible between the two widgets.

Enter all the necessary data and click the '**Create Group**' button.

Create New Service Group

Dashboard / Create New Service Group

Create a new service group, you can also create new categories and manage the existing one from here.

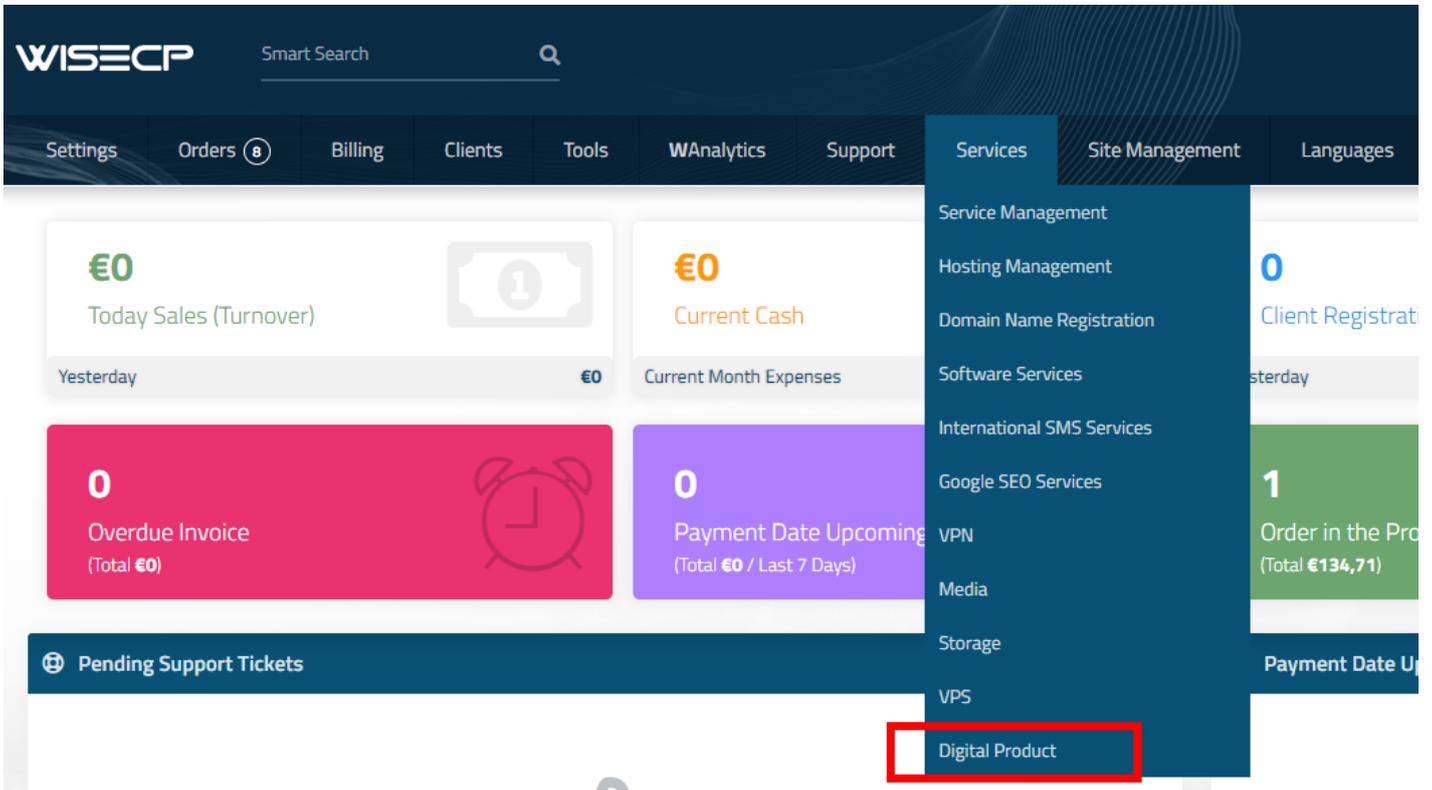

EN UK RO PT PL NL LV KA IT ID HU FR FA ES EL DE CS BS AR

Title	Digital Product
Short Detail	Short Group Description
Listing Template	<input checked="" type="radio"/> Box List <input type="radio"/> Horizontal List
Status	Active
Background Image	 (optional)
Group Colour	#FFFFFF
Order Upgrades	<input type="checkbox"/> Allow clients to upgrade to higher package in the same service group

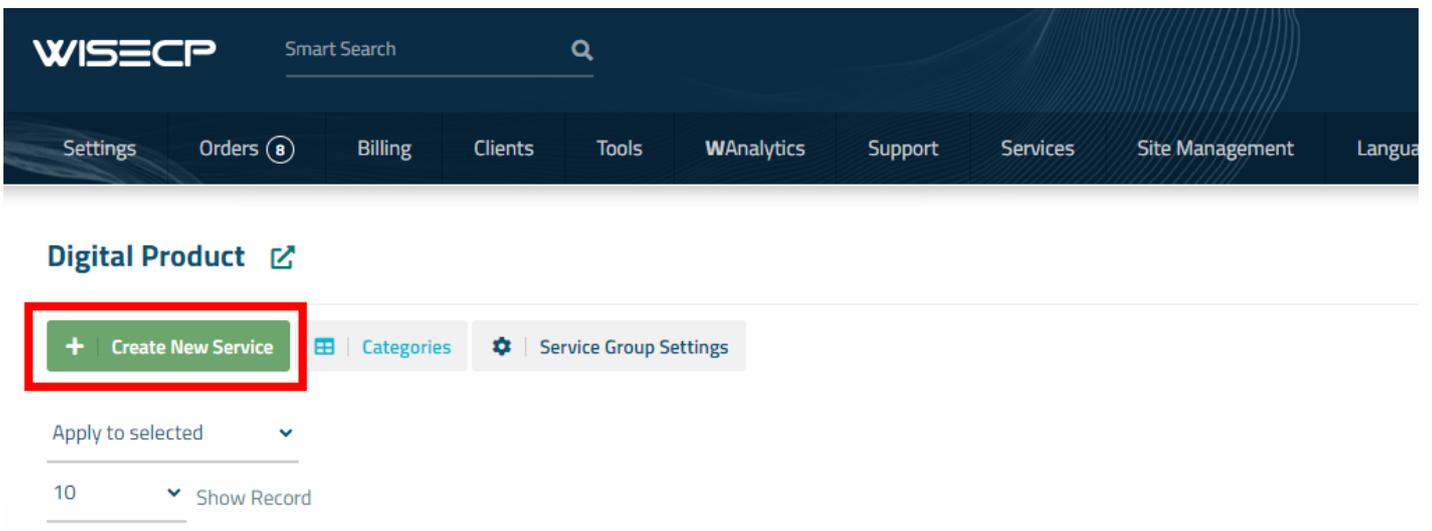

3. Adding a New Service

Go to

Services -> our service group where you need to add the new service.

In the opened window, click the '**Create New Service**' button.

On the opened page, enter all the necessary details for your new service and navigate to the '**Core**' tab.

Select the '**PUQ Digital Product**' module from the drop-down list of modules.

The screenshot shows the 'Add Service Pack For Digital Product' configuration page in the WISECP system. The page is titled 'Add Service Pack For Digital Product' and is located under 'Dashboard / Digital Product / Add Service Product'. The form is divided into several sections:

- Module:** PUQ Digital Product
- Nextcloud Server:** nextcloud-test.uuq.pl
- Share Rescue:** Choose (Select Nextcloud Resource)
- Password protect:** NO (Password protect Nextcloud share)
- Prefix:** Will be attached to the label of Nextcloud share. Nextcloud share label: <PREFIX>-<CLIENT_ID>-<SERVICE_ID>
- Link to instruction:** https://*****/ (A link to the instruction will be reflected in the client area.)
- Automatic Setup:** Please activate for automatic installation of the order. Otherwise, administrator approval is required.

A red box highlights the 'Create Product' button at the bottom right of the form.

4. Fill in the configuration options according to your preferences.

- **Nextcloud Server** Select from the drop-down list the server on which you have the Digital Product
- **Share Rescue: ATTENTION:** here the data is updated after saving, you must save the product before making a choice here, select a folder on the server and save the changes.
- **Password protect:** If you need to protect the shared resource with a password, select YES
- **Prefix:** The prefix is required to identify the client's shared link. An entry with the structure <PREFIX>-<CLIENT_ID>-<SERVICE_ID> will be added to the description of the shared link on the nextcloud server to facilitate searching if necessary
- **Link to instruction:** Link to the instruction, if filled out, it will be reflected in the client area
- **Automatic Setup:** Please activate for automatic installation of the order. Otherwise, administrator approval is required.
