Client Area Overview - Logical Structure

The **main screen** of the client area is divided into **three logical sections**:

1. Navigation Block

- **"Go to InfluxDB"**: Direct link to access the application.
- **"User Manual"**: Opens the official documentation or user guide.

2. Resource Usage Block

- Displays real-time statistics on container resource usage:
 - **CPU Usage**: Number of allocated CPUs and current load.
 - **Memory Usage**: RAM consumption, helping clients understand available capacity.
 - **Disk Usage**: Storage consumption within the container.
- This section is crucial for users to **monitor performance** and determine whether they need to **upgrade their package**.

3. Application Information & Controls

- **Application Version**: Displays the installed software version.
- **Owner Information**: Indicates the primary administrator of the application.
- **User List**: Shows active users associated with the instance.
- **Reset Password Button**: Allows the client to reset the administrator password for the application.

This **clear structure** ensures that users have **quick access** to their application, **real-time monitoring** of resource usage, and **essential management functions** in one place.

IP Access Control

Docker InfluxDB module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#) | [n8n](#)

In the client area, the client can configure access to their resource by entering allowed IP addresses in the appropriate section on the **Restrict by IP** page.

If no IP addresses are specified, access is open to all IP addresses.

Reinstall

Docker InfluxDB module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#) | [n8n](#)

The client has the option to **fully reinstall the application**, which will result in **complete data loss**.

This action can be performed on the **Reinstall** page, which also includes **protection against accidental reinstatement**.
