Docker MinIO module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#) | [n8n](#)

Client Area Overview — Logical Structure

The **main screen** of the client area is divided into **three logical sections**:

1. **Navigation Block**

- **"User Manual"**: Opens the official documentation or user guide (link configured by administrator).

2. **Connection Details Block**

- **Web Console**: Direct link to access the MinIO web console with copy button.
- **REST API**: Link to the MinIO REST API endpoint with copy button.
- **Username**: MinIO account username with copy button.
- **Password**: MinIO account password with show/hide toggle and copy button.
- **Change Administrator Password**: Button to reset the administrator password.

3. **Resource Usage Block**

- Displays real-time statistics on container resource usage:
 - **Status**: Current container state (Running / Stopped / Paused).
 - **CPU Usage**: Number of allocated CPUs and current load.
 - **Memory Usage**: RAM consumption with progress bar.
 - **Disk Usage**: Storage consumption within the container with progress bar.
- This section includes a **Refresh** button for real-time data updates.

4. **Application Information**

- **Version**: Displays the installed MinIO version.
- **Administrator**: Indicates the primary administrator of the application.
- **Users**: Shows active users associated with the instance.

This **clear structure** ensures that users have **quick access** to their application, **real-time monitoring** of resource usage, and **essential management functions** in one place.

Change Administrator Password

The screenshot displays a monitoring dashboard with two main sections: 'Container' and 'App'. The 'Container' section shows the status as 'Running' and provides resource usage metrics: CPU usage at 100% (1 CPU), Memory usage at 29% (297.4MiB / 1GiB), and Disk usage at 99% (144K / 9.8G). The 'App' section shows the version as 'RELEASE.2025-03-12T18-04-18Z', the administrator as 'gSVpAB', and no users are currently logged in.

Category	Item	Value
Container	Status	Running
	CPU usage	100% (1 CPU)
	Memory usage	29% (297.4MiB / 1GiB)
	Disk usage	99% (144K / 9.8G)
App	Version	RELEASE.2025-03-12T18-04-18Z
	Administrator	gSVpAB
	Users	N/A

Sidebar Navigation

The client area sidebar provides quick access to:

- **Information** — Main service page with connection details and resource monitoring
- **Restrict by IP** — IP access control page
- **Reinstall** — Service reinstallation page

The sidebar navigation menu is located on the left side of the interface. It contains four items: 'Overview' (highlighted with a star icon and an upward arrow), 'Information' (with an information icon), 'Restrict by IP' (with a shield icon), and 'Reinstall' (with a refresh icon).
