IP Access Control

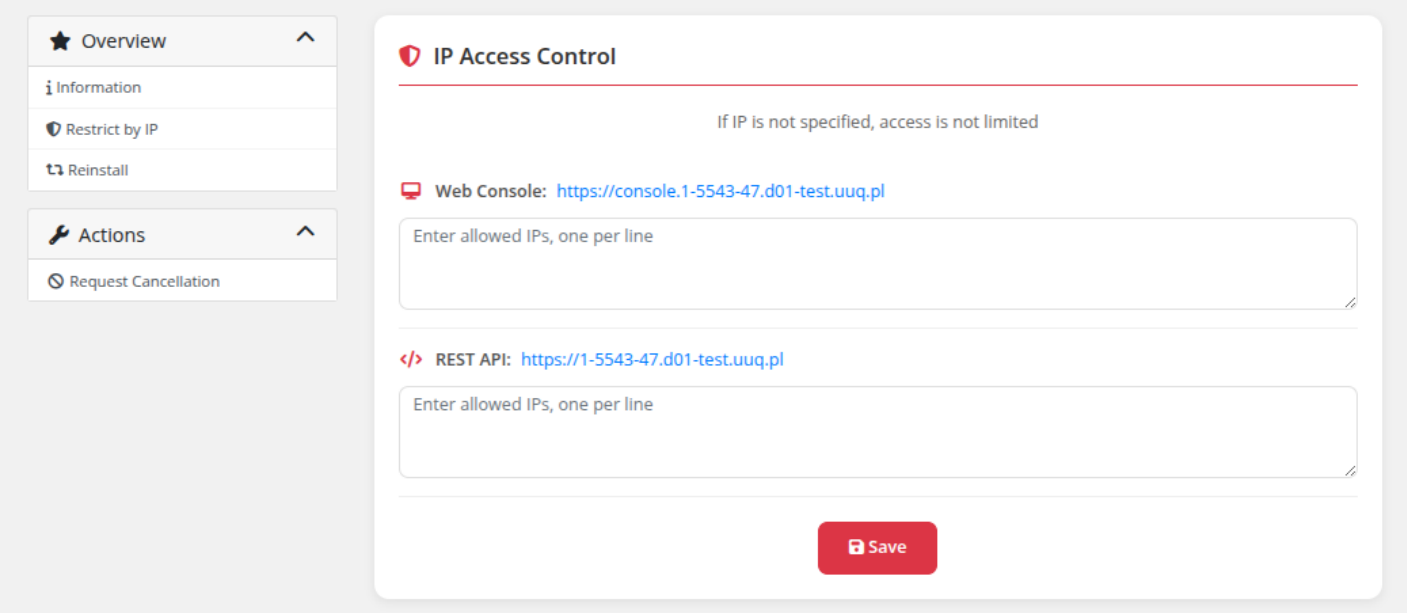

Docker MinIO module **WHMCS**

Order now | Download | FAQ | n8n

In the client area, the client can configure access to their resource by entering allowed IP addresses in the appropriate section on the **Restrict by IP** page.

If no IP addresses are specified, access is open to all IP addresses.

The page displays the service URLs (**Web Console** and **REST API**) and provides separate text areas for entering allowed IPs for each endpoint — one IP address per line.
