

Home Screen

Docker n8n module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#) | [n8n](#)

Overview

The client area home screen provides quick access to the n8n instance, real-time monitoring of resource usage, and essential management functions in one place.

Main Sections

Navigation Block

- **User Manual** — Link to the documentation (if configured in product settings)

Connection Details

- **n8n Web Interface** — Direct link to the n8n instance with a copy button
- **Change Owner Password** — Button to change the n8n owner password via modal dialog

Resource Usage (Container Status)

Real-time monitoring of container resources:

- **Status** — Current container state (Running, Stopped, Paused, etc.)
- **CPU Usage** — CPU allocation and current load with progress bar
- **Memory Usage** — RAM consumption with progress bar

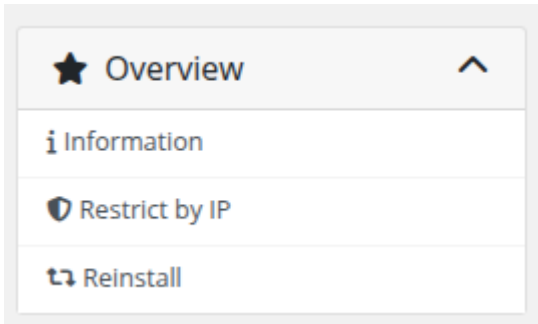

- **Disk Usage** — Storage usage with progress bar
- **Refresh** — Button to reload container statistics

Application Information

- **Version** — Installed n8n version
 - **Users** — List of active users in the n8n instance
-

Sidebar Navigation

- **Information** — Main dashboard (home screen)
- **Restrict by IP** — IP access control configuration
- **Reinstall** — Full service reinstallation
