IP Access Control

Docker n8n module **WHMCS**

Order now | Download | FAQ | n8n

Overview

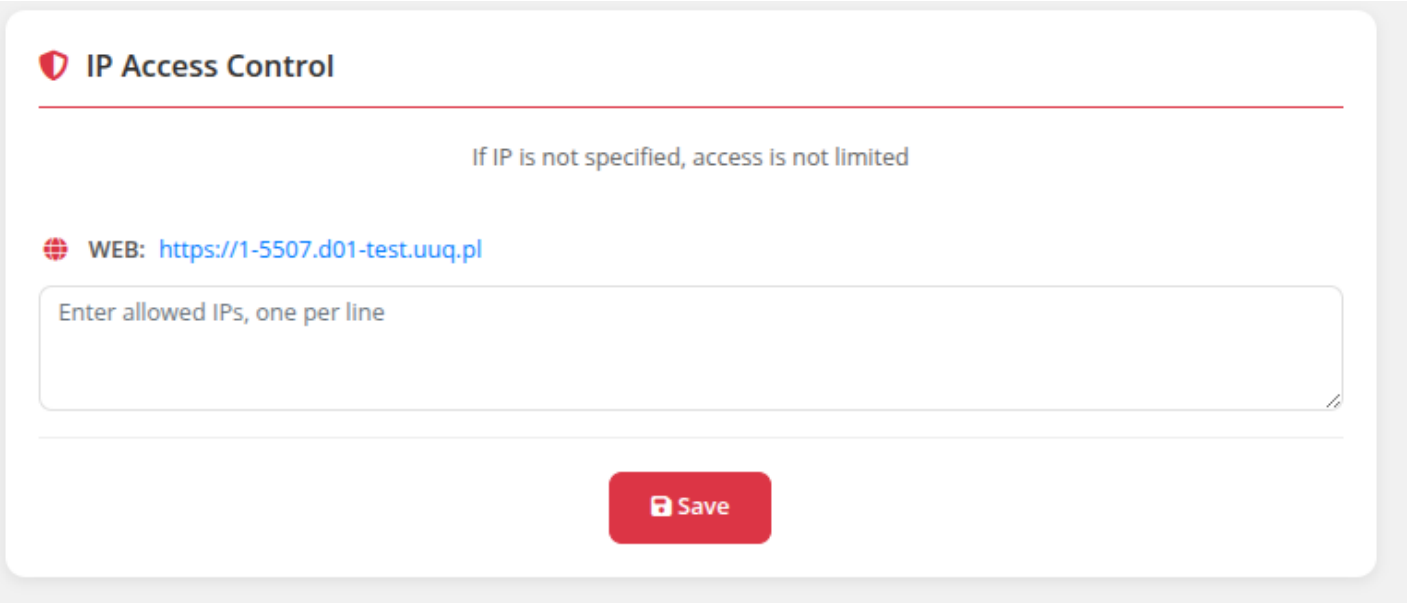

The IP Access Control page allows clients to restrict access to their n8n instance by specifying allowed IP addresses.

Configuration

- Navigate to **Restrict by IP** in the sidebar
- Enter approved IP addresses in the text area (one IP per line)
- Supports both IPv4 and IPv6 addresses
- Click **Save** to apply changes

Important

- If no IP addresses are configured, access is open to all IP addresses
- Invalid IP addresses are automatically filtered out
- Duplicate entries are removed
