

IP Access Control

Docker n8n module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#) | [n8n](#)

Overview

The IP Access Control page allows clients to restrict access to their n8n instance by specifying allowed IP addresses.

Configuration

- Navigate to **Restrict by IP** in the sidebar
- Enter approved IP addresses in the text area (one IP per line)
- Supports both IPv4 and IPv6 addresses
- Click **Save** to apply changes

Important

- If no IP addresses are configured, access is open to all IP addresses
- Invalid IP addresses are automatically filtered out
- Duplicate entries are removed

IP Access Control

If IP is not specified, access is not limited

 **WEB:** <https://1-5507.d01-test.uuq.pl>

Enter allowed IPs, one per line

 Save
