Docker NextCloud module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#) | [n8n](#)

Client Area Overview - Logical Structure

The **main screen** of the client area for the NextCloud service is divided into **three logical sections**:

1. Navigation Block

- **"Go to NextCloud"**: Direct link to your NextCloud web interface.
- **"User Manual"**: Provides direct access to official NextCloud documentation and user guides.

2. Resource Usage Block

- Displays real-time metrics about your NextCloud container's resource utilization:
 - **CPU Usage**: Displays allocated CPUs and current load percentage.
 - **Memory Usage**: Shows RAM consumption, providing clarity on resource availability.
 - **Disk Usage**: Indicates used and available storage space within the container.
- Helps users **monitor container performance** and assess whether a **plan upgrade** might be necessary.

3. Application Information & Controls

- **NextCloud Version**: Shows the installed version of NextCloud.
- **Administrator Information**: Identifies the primary account managing the NextCloud instance.
- **User List**: Displays all active users associated with the NextCloud instance.
- **Reset Password Button**: Enables administrators to reset their login password conveniently.

This **clear and intuitive structure** ensures users have **easy access** to their NextCloud instance, facilitates **efficient real-time monitoring** of resources, and centralizes **critical management functionalities** for streamlined operation.
