

Product Configuration

Emby Family module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

Create a new Products/Services

System Settings->Products/Services->Create a New Product

In the **Module settings** section, select the "**PUQ Emby Family**" module

Module Name

PUQ Emby Family

Server Group

PUQ Emby Family

License key

W F

success: 2024-07-13T10:53:59+02:00

Media Accounts Configuration

Count of media accounts:

11

Available number of media accounts for creation by user

Streaming bitrate limit:

12

Mbps

Remote control:

☒ Remote control of shared devices (DLNA devices are considered shared until a user begins controlling them)

☒ Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.

Media downloads:

☒ Allow subtitle downloading

Subtitle Downloading:

☒ If allowed, and if enabled in Emby mobile apps, users can automatically upload photos and videos taken from their camera to this Emby Server

Camera upload:

☒ Grant or deny access to the convert media feature.

Media conversion:

☒ Only web pages containing media information are shared. Media files are never shared publicly. Shares are time-limited and will expire after 30 days.

Social media sharing:

☒ Allow this user to change their password and profile image

User Preference Access:

em1-

Username prefix:

Will be attached to the beginning of username.
Only small letters and numbers and symbol "-"

Username suffix:

Will be appended to the end of username.
Only small letters and numbers and symbol "-"

User Configuration

Libraries Configuration

Use All Libraries:

☐ select all libraries together

Libraries:

Sport

Cartoons

Movies

Write down the libraries you want to make available to customers of this product.
(IMPORTANT! Start a new line for each new library)
Example:
"Movies
Beginner's Programming Course
Comedy"

IMPORTANT!

If you have a folder named "-", please enter it not as the first one or rename it.
If you don't want any folder to be accessible, type "-".

Feature access

media:

☒

audio that requires transcoding:

☒

video that requires transcoding:

☒

video that requires conversion without re-encoding:

☒

Client Area

Allow playback

Allow Live TV access:

☒

Allow Live TV recording management:

☒

Force transcoding of remote media sources such as Live TV:

☒

Links

Instruction:

https://doc.puq.info/books/emby-whmcs

A link to the instruction will be reflected in the client area.

Show Password:

Show button

Show service password in the client area

Switch to Advanced Mode

☐ Automatically setup the product as soon as an order is placed

☒ Automatically setup the product as soon as the first payment is received

☐ Automatically setup the product when you manually accept a pending order

☐ Do not automatically setup this product

- **License key:** A pre-purchased license key for the "**PUQ Emby Family**" module. For the module to work correctly, the key must be active

Media Accounts Configuration

- **Count of media accounts:** Available number of media accounts for creation by user.

Libraries:

- **Use All Libraries:** Choosing all of libraries from your Jellyfin server
- **Libraries:** The libraries you want to make available to customers of this product.
(IMPORTANT! Start a new line for each new library)

Example:

"Movies

Beginner`s Programming Course

Comedy"

IMPORTANT!

If you have a folder named "-", please enter it not as the first one or rename it.

If you don't want any folder to be accessible, type "-".

User Configuration:

- **Streaming bitrate limit:** An optional per-stream bitrate limit for all out of network devices. This is useful to prevent devices from requesting a higher bitrate than your internet connection can handle. This may result in increased CPU load on your server in order to transcode videos on the fly to a lower bitrate.
- **Remote control:** Remote control of shared devices (DLNA devices are considered shared until a user begins controlling them)
- **Media downloads:** Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.
- **Subtitle Downloading:** Allow subtitle downloading
- **Camera upload:** If allowed, and if enabled in Emby mobile apps, users can automatically upload photos and videos taken from their camera to this Emby Server
- **Media conversion:** Grant or deny access to the convert media feature.
- **Social media sharing:** Only web pages containing media information are shared. Media files are never shared publicly. Shares are time-limited and will expire after 30 days.
- **User Preference Access:** Allow this user to change their password and profile image
- **Username prefix/Username suffix:** Necessary in order to generate a username for the service, in the format: **prefix<client_id>-<service_id>suffix**

Allow playback (Restricting access to transcoding may cause playback failures in clients due to unsupported media formats)

- **media**
- **audio that requires transcoding**

- **video that requires transcoding**
- **video that requires conversion without re-encoding**

Feature access:

- **Allow Live TV access**
- **Allow Live TV recording management**
- **Force transcoding of remote media sources such as Live TV**

Links

- **Link to instruction:** Link to the instruction, if filled out, it will be reflected in the client area

Client Area

- **Client Area:** Client zone settings, show or not show the password in the client zone, type how to show the password.
