Overwrite package settings ☐ Overwriting the package settings is necessary to personalize the service if you need it.

Send changes to server ☐ To apply the changes on the server, it is necessary to check this checkbox.

Update

In the opened tab, you have a view of the online status of the service. The available online information includes:

- Connection status to the API
- Information about the Emby account on the **Emby** server
- Information about the account

Also, below are fields with the client's personal data.

You can also individually override package options for the client by checking the '**Overwrite package settings**' box.

After modifying the configuration options, check the '**Send changes to server**' box to save the data to the Emby server.

Username	4-187	Password	fstiYP6C	Server	emby-test.uuq.pl

Server Group	Default (Servers: 1)	Use All Libraries	☑ select all libraries together select all libraries together
Username prefix	em- *Will be attached to the beginning of username. Only small letters and numbers and symbol "-"*	Libraries	*IMPORTANT! Before writing any libraries here, read the instructions!*
Username suffix	-by *Will be appended to the end of username. Only small letters and numbers and symbol "-"*	Streaming bitrate limit	50 *Mbps. Please provide number from 1 to 60*
Remote control	☑ Remote control of shared devices Remote control of shared devices	Media downloads	☑ Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly. Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.
Allow Playback Media	☑	Allow Playback Audio	☑ audio that requires transcoding audio that requires transcoding
Allow Playback Video	☐ video that requires transcoding video that requires transcoding	Allow Playback Video	☐ video that requires conversion without re-encoding video that requires conversion without re-encoding
Allow Live TV access	☑	Allow Live TV recording management	☑
Force transcoding of remote media sources such as Live TV	☐	Count Of Media Accounts	4 *Available number of media accounts for creation by user*
