Add server (Emby server)

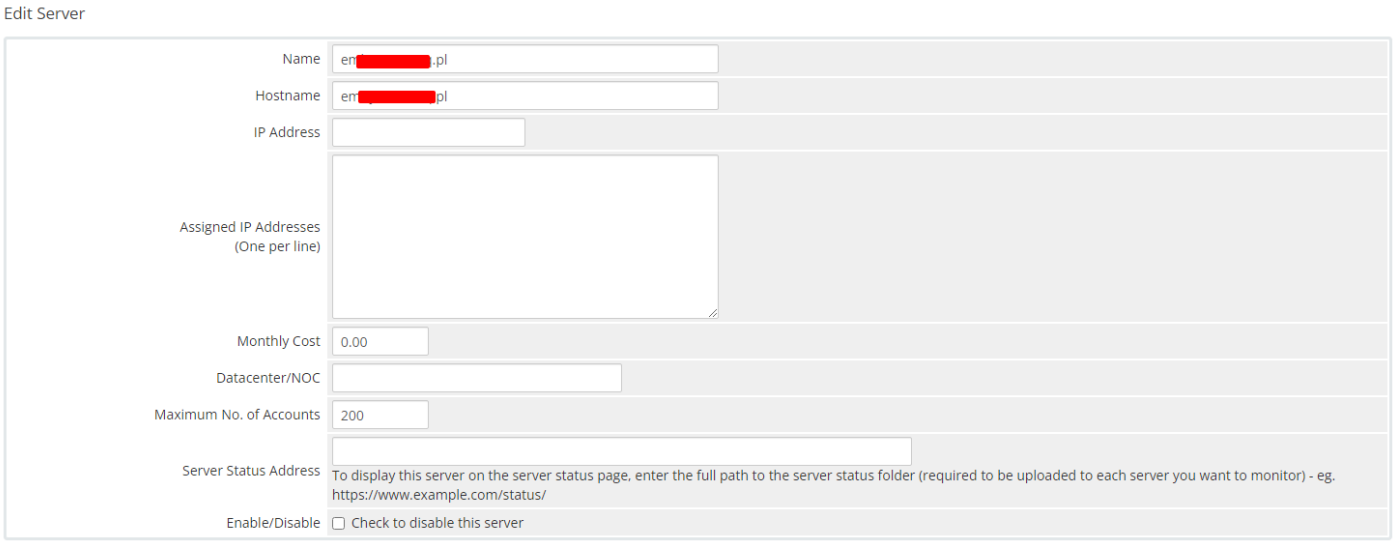

Emby module **WHMCS**

Order now | Download | FAQ

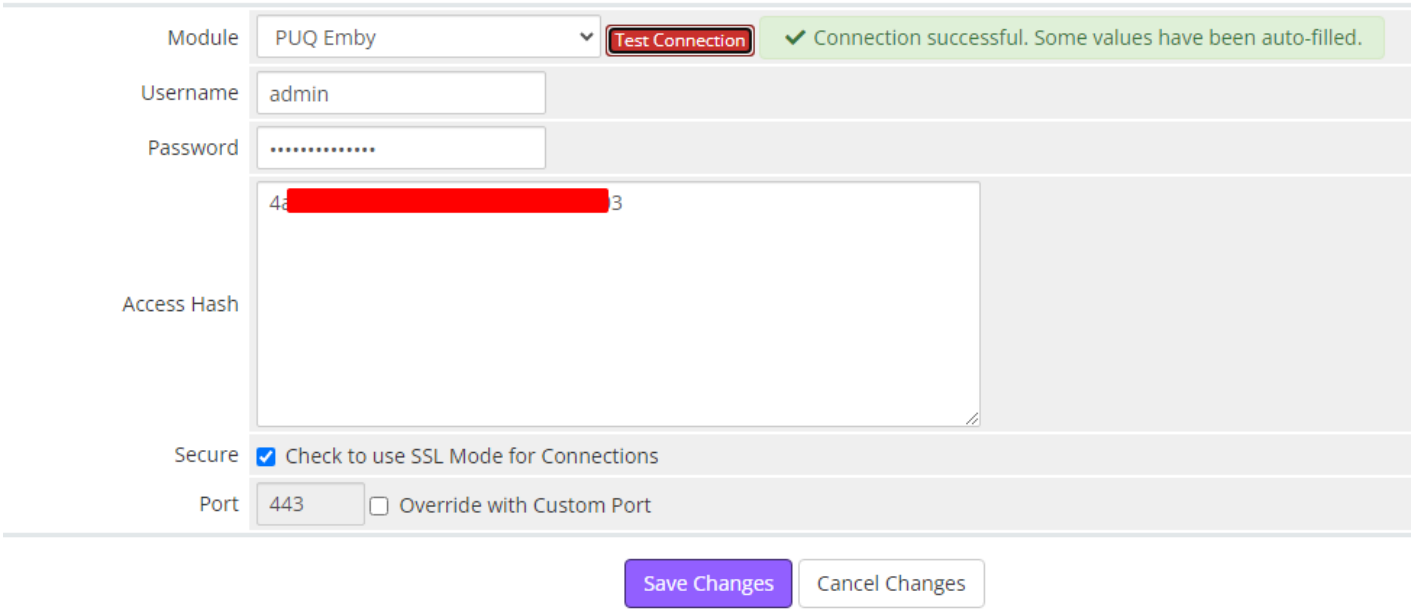

Add a new server to the system WHMCS.

```
System Settings->Servers->Add New Server
```

- Enter the correct **Name** and **Hostname**

- In the **Server Details** section, select the "**PUQ Emby**" module and enter the correct **username**, **password** and **access hash (API key)** for the **Emby web interface**
- To check, click the **"Test connection"** button
