Create a new Products/Services

System Settings->Products/Services->Create a New Product

In the **Module settings** section, select the "**PUQ Emby**" module

Module Name		PUQ Emby	
Server Group		emby-test.uuq.pl	

License key	N7PY45 [REDACTED] YHEKBM success: 2023-12-08T13:35:40+01:00		
Libraries Configuration	Use All Libraries: <input type="checkbox"/> select all libraries together <div> Movies Cartoons </div>	User Configuration	Streaming bitrate limit: 50 Mbps Remote control: <input checked="" type="checkbox"/> Remote control of shared devices (DLNA devices are considered shared until a user begins controlling them) <input checked="" type="checkbox"/> Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.
	Libraries: Write down the libraries you want to make available to customers of this product. (IMPORTANT! Start a new line for each new library) Example: "Movies Beginner's Programming Course Comedy" IMPORTANT! If you have a folder named "-", please enter it not as the first one or rename it. If you don't want any folder to be accessible, type "-".		Media downloads: Username prefix: em- Will be attached to the beginning of username. Only small letters and numbers and symbol "-". Username suffix: -by Will be appended to the end of username. Only small letters and numbers and symbol "-".
	Allow playback media: <input checked="" type="checkbox"/> audio that requires transcoding: <input type="checkbox"/> video that requires transcoding: <input type="checkbox"/> video that requires conversion without re-encoding: <input type="checkbox"/>		Feature access Allow Live TV access: <input type="checkbox"/> Allow Live TV recording management: <input type="checkbox"/> Force transcoding of remote media sources such as Live TV: <input type="checkbox"/>
Links	Instruction: https://doc.puq.info/books/emby-whmcs A link to the instruction will be reflected in the client area.		

[Switch to Advanced Mode](#)

<input type="radio"/>	Automatically setup the product as soon as an order is placed
<input checked="" type="radio"/>	Automatically setup the product as soon as the first payment is received
<input type="radio"/>	Automatically setup the product when you manually accept a pending order
<input type="radio"/>	Do not automatically setup this product

- **License key:** A pre-purchased license key for the "PUQ Emby" module. For the module to work correctly, the key must be active

Libraries:

- **Use All Libraries:** Choosing all of libraries from your Jellyfin server
- **Libraries:** The libraries you want to make available to customers of this product.
(IMPORTANT! Start a new line for each new library)
 Example:
 "Movies
 Beginner's Programming Course
 Comedy"

IMPORTANT!

If you have a folder named "-", please enter it not as the first one or rename it.

If you want to select all folders together, simply leave the field EMPTY.

If you don't want any folder to be accessible, type "-".

User Configuration:

- **Streaming bitrate limit:** An optional per-stream bitrate limit for all out of network devices. This is useful to prevent devices from requesting a higher bitrate than your internet connection can handle. This may result in increased CPU load on your server in order to transcode videos on the fly to a lower bitrate.
- **Remote control:** Remote control of shared devices (DLNA devices are considered shared until a user begins controlling them)
- **Media downloads:** Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.
- **Username prefix/Username suffix:** Necessary in order to generate a username for the service, in the format: **prefix<client_id>--<service_id>suffix**

Allow playback (Restricting access to transcoding may cause playback failures in clients due to unsupported media formats)

- **media**
- **audio that requires transcoding**
- **video that requires transcoding**
- **video that requires conversion without re-encoding**

Feature access:

- **Allow Live TV access**
- **Allow Live TV recording management**
- **Force transcoding of remote media sources such as Live TV**

Links

- **Link to instruction:** Link to the instruction, if filled out, it will be reflected in the client area
