Overwrite package settings

☐

Overwriting the package settings is necessary to personalize the service if you need it.

Send changes to server

☐

To apply the changes on the server, it is necessary to check this checkbox.

Update

In the opened tab, you have a view of the online status of the service. The available online information includes:

- Connection status to the API
- Information about the Emby account on the **Emby** server
- Information about the account

Also, below are fields with the client's personal data.

You can also individually override package options for the client by checking the '**Overwrite package settings**' box.

After modifying the configuration options, check the '**Send changes to server**' box to save the data to the Emby server.

<b>Username</b>	em-4-120-by	<b>Password</b>		<b>Server</b>	emby-test.uuq.pl123
<b>Server Group</b>	Default (Servers: 1)	<b>Use All Libraries</b>	<input type="checkbox"/> select all libraries together		
<b>Username prefix</b>	em- <small>Will be attached to the beginning of username. Only small letters and numbers and symbol "-"</small>	<b>Libraries</b>	Movies		
<b>Username suffix</b>	-by <small>Will be appended to the end of username. Only small letters and numbers and symbol "-"</small>	<b>Streaming bitrate limit</b>	50 Mbps		
<b>Remote control</b>	<input checked="" type="checkbox"/> Remote control of shared devices	<b>Media downloads</b>	<input checked="" type="checkbox"/> Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.		
<b>Allow Playback Media</b>	<input checked="" type="checkbox"/>	<b>Allow Playback Audio</b>	<input type="checkbox"/> audio that requires transcoding		
<b>Allow Playback Video</b>	<input type="checkbox"/> video that requires transcoding	<b>Allow Playback Video</b>	<input type="checkbox"/> video that requires conversion without re-encoding		
<b>Allow Live TV access</b>	<input type="checkbox"/>	<b>Allow Live TV recording management</b>	<input type="checkbox"/>		
<b>Force transcoding of remote media sources such as Live TV</b>	<input type="checkbox"/>	<b>Link to instruction</b>	<a href="https://doc.puq.info/books/emby-wisecp-module">https://doc.puq.info/books/emby-wisecp-module</a> <small>A link to the instruction will be reflected in the client area.</small>
