

Getting Access Hash (API key)

Emby module **WISECP**

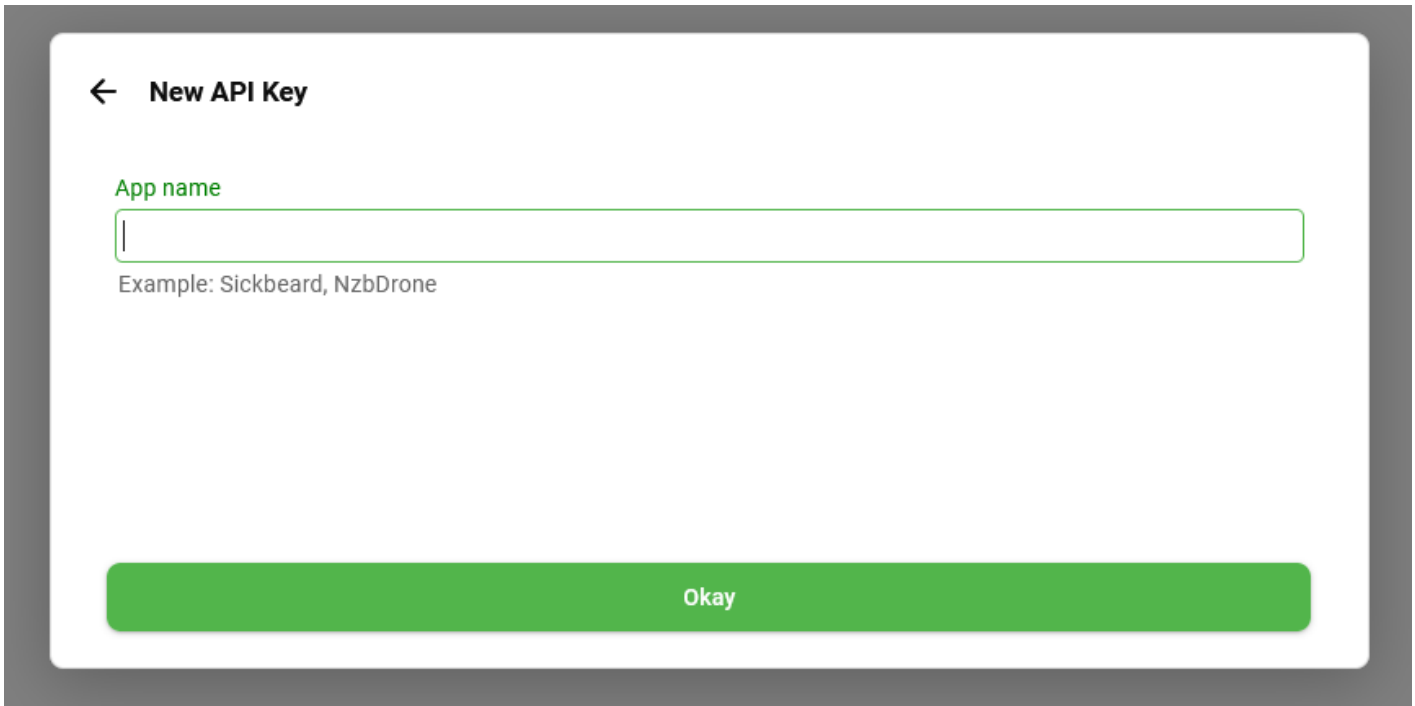

[Order now](#) | [Download](#) | [FAQ](#)

Dashboard -> API Keys

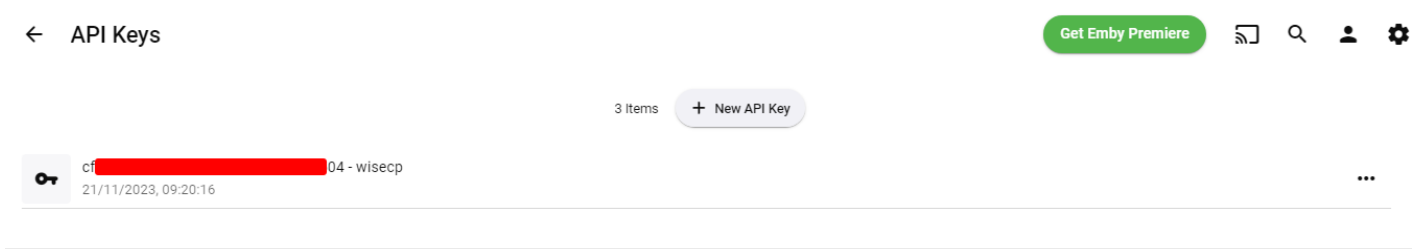

Create a new API Key

The screenshot shows the Emby web interface for managing API keys. On the left is a sidebar menu with categories: Network, Transcoding, Database, Conversions, Cinema Intros, Open Subtitles, Webhooks, Devices (with a dropdown arrow), and Advanced (with a dropdown arrow). The 'API Keys' item is highlighted in green. The main content area is titled 'API Keys' and shows '0 Items' and a '+ New API Key' button. Below this, it says 'No items found.' In the top right corner, there is a 'Get Emby Premiere' button and icons for search, user profile, and settings.

Write an App Name

Now you can getting an API key
