

# Add server (HestiaCP)

[Order now](#) | [Download](#) | [FAQ](#)

## Add a new server to the system WHMCS.

System Settings->Servers->Add New Server

- Enter the correct **Name** and **Hostname** and **IP Address**
- In the **Server Details** section, select the "**PUQ HestiaCP**" module and enter the correct **username** and **password** for the **HestiaCP** server.
- To check, click the "**Test connection**" button

## Server Details

Revision #5
