Add server (Hetzner)

Hetzner Datacenter module **WHMCS**

Order now | Download | FAQ

Add a new server to the system WHMCS.

```
System Settings->Servers->Add New Server
```

- Enter the correct **Name** and **API** url `api.hetzner.cloud`
- In the **Server Details** section, select the "**PUQ Hetzner Datacenter**" module and enter the correct **api key** and for the **Hetzner API**. To get an API key, go to the **Hetzner console** -> **Security -> API tokens -> Generate API token**
- To check, click the "**Test connection**" button
