

Add server (Hetzner)

Hetzner Datacenter module WHMCS

[Order now](#) | [Download](#) | [FAQ](#)

Add a new server to the system WHMCS.

System Settings->Servers->Add New Server

- Enter the correct **Name** and **API** url `api.hetzner.cloud`
- In the **Server Details** section, select the "**PUQ Hetzner Datacenter**" module and enter the correct **api key** and for the **Hetzner API**. To get an API key, go to the **Hetzner console** -> **Security** -> **API tokens** -> **Generate API token**
- To check, click the **Test connection** button

Server Details

Revision #4

Module **PUQ Hetzner Datacenter** Test Connection

Created 30 August 2024 10:19:43 by Dmytro Kravchenko

Updated 4 September 2024 11:08:16 by Dmytro Kravchenko

✓ Connection successful. Some values have been auto-filled.
