Order Detail

Jellyfin Family module **WISECP**

Order now | Download | FAQ

Navigate to the service you want to manage, then go to the '**Core**' tab.

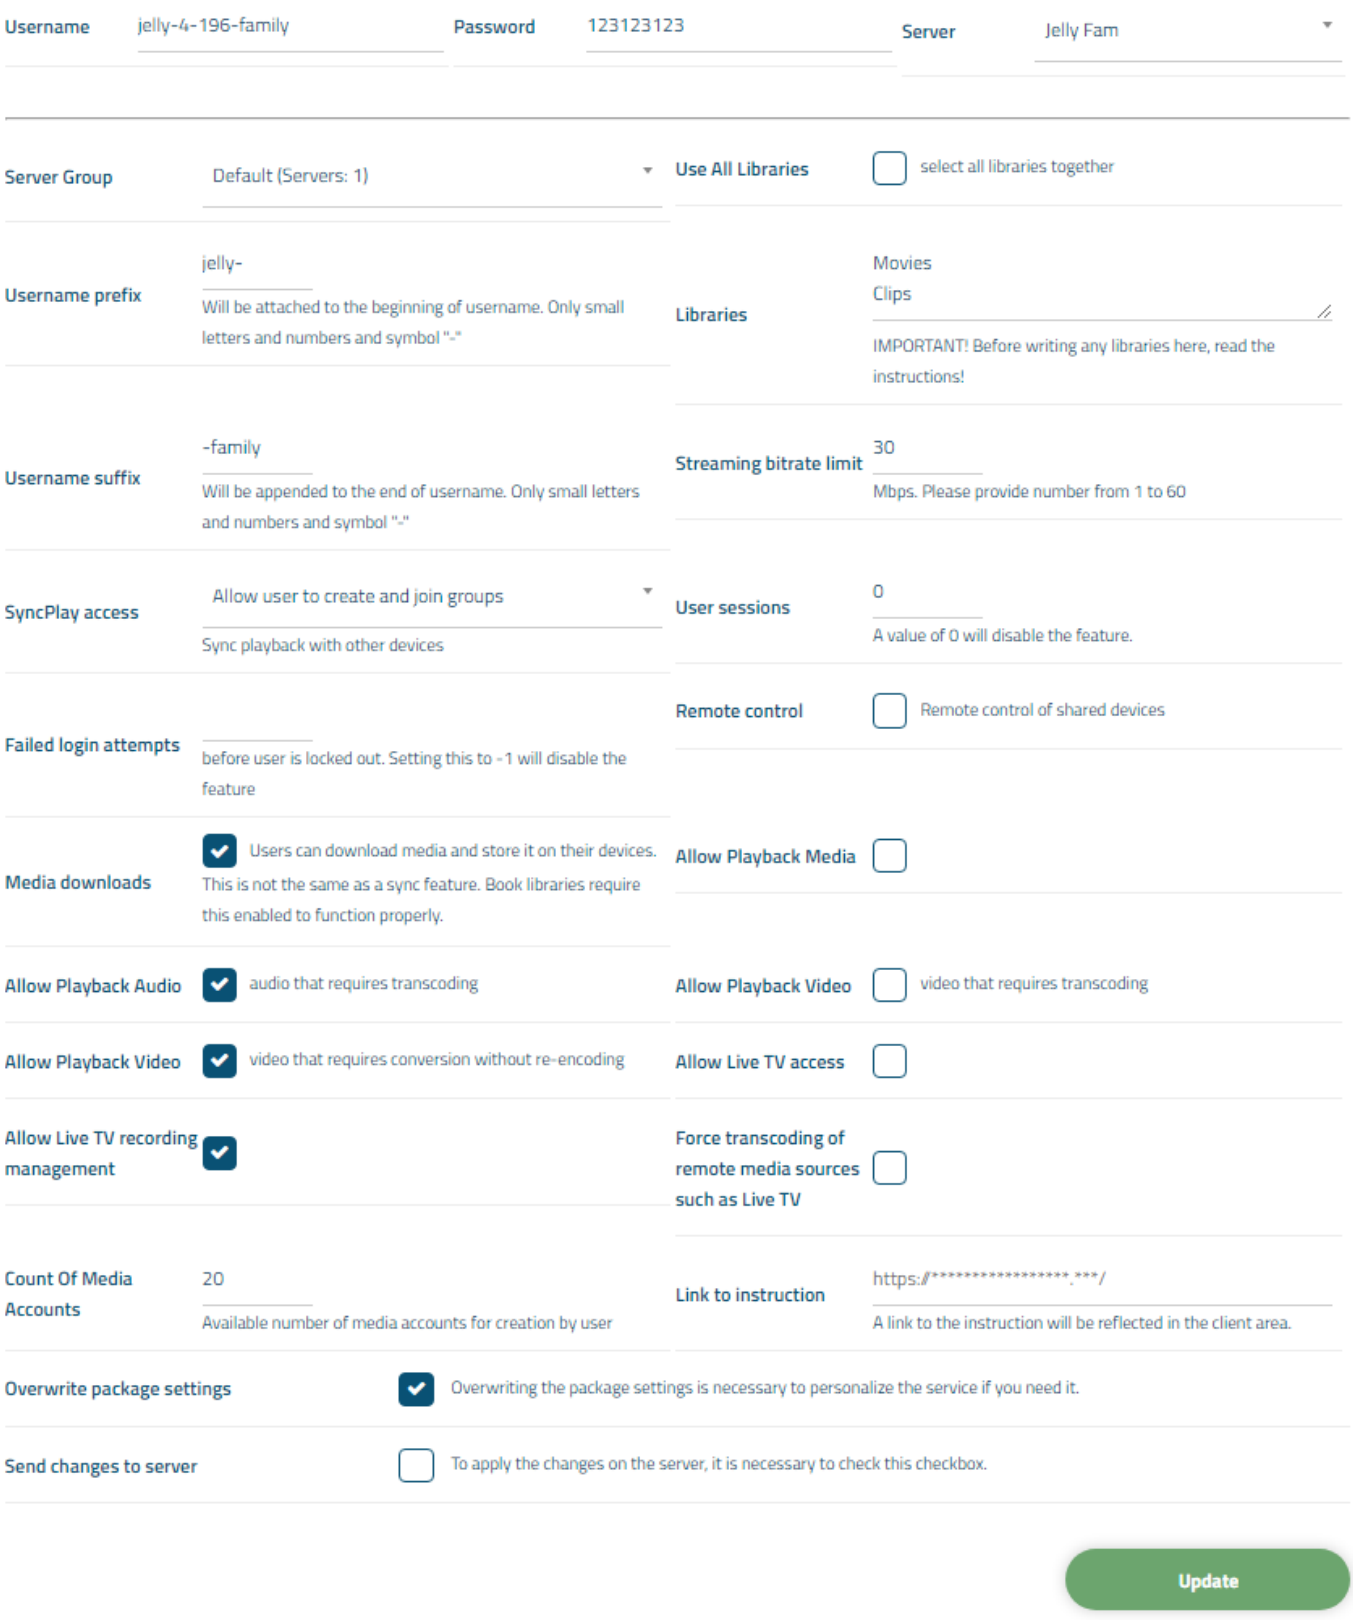

In the opened tab, you have a view of the online status of the service. The available online information includes:

- Connection status to the API
- Information about the Jellyfin account on the **Jellyfin** server
- Information about the account

Also, below are fields with the client's personal data.

You can also individually override package options for the client by checking the '**Overwrite package settings**' box.

> After modifying the configuration options, check the '**Send changes to server**' box to save the data to the Jellyfin server.
