Module Name: PUQ Jellyfin  
Server Group: jellyfin-test.uuq.pl

License key: XBN2Y5-XXCXBC-8LHPGS-CJVTY5-SMSJ2P  
success: 2025-07-08T16:03:33+02:00

Use All Libraries: ☐ select all libraries together

Libraries Configuration

Libraries:

Write down the libraries you want to make available to customers of this product.  
**(IMPORTANT! Start a new line for each new library)**  
Example:  
"Movies  
Beginner's Programming Course  
Comedy"

**IMPORTANT!**  
If you have a folder named "-", please enter it not as the first one or rename it.  
If you don't want any folder to be accessible, type "-".

media: ☐  
audio that requires transcoding: ☒  
video that requires transcoding: ☐  
video that requires conversion without re-encoding: ☐

Links

Instruction: <https://doc.puq.info/books/jellyfin-whmcs-r>  
A link to the instruction will be reflected in the client area.

User Configuration

Streaming bitrate limit: 60  
Mbps. Please provide number from 1 to 60

SyncPlay access: ☐ Allow user to create and join groups Sync playback with other devices

Remote control: ☐ Remote control of shared devices (DLNA devices are considered shared until a user begins controlling them)

Media downloads: ☒ Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.

User sessions: 3 A value of 0 will disable the feature.

Failed login attempts: 3 before user is locked out. Setting this to -1 will disable the feature.

Username prefix: jelly-  
Will be attached to the beginning of username. Only small letters and numbers and symbol "-"

Username suffix: -fin  
Will be appended to the end of username. Only small letters and numbers and symbol "-"

Feature access

Allow Live TV access: ☐  
Allow Live TV recording management: ☒  
Force transcoding of remote media sources such as Live TV: ☐

Client Area

Show Password: Plain text  
Show service password in the client area

- **License key:** A pre-purchased license key for the "**PUQ Jellyfin**" module. For the module to work correctly, the key must be active

### Libraries:

- **Use All Libraries:** Choosing all of libraries from your Jellyfin server
- **Libraries:** The libraries you want to make available to customers of this product.  
**(IMPORTANT! Start a new line for each new library)**

Example:

"Movies

Beginner`s Programming Course

Comedy"

### **IMPORTANT!**

If you have a folder named "-", please enter it not as the first one or rename it.

If you don't want any folder to be accessible, type "-".

## User Configuration:

- **Streaming bitrate limit:** An optional per-stream bitrate limit for all out of network devices. This is useful to prevent devices from requesting a higher bitrate than your internet connection can handle. This may result in increased CPU load on your server in order to transcode videos on the fly to a lower bitrate.
- **SyncPlay access:** The SyncPlay feature enables to sync playback with other devices. Select the level of access this user has to the SyncPlay
- **Remote control:** Remote control of shared devices (DLNA devices are considered shared until a user begins controlling them)
- **Media downloads:** Users can download media and store it on their devices. This is not the same as a sync feature. Book libraries require this enabled to function properly.
- **User sessions:** Set the maximum number of simultaneous user sessions.  
A value of 0 will disable the feature.
- **Failed login attempts:** Determine how many incorrect login tries can be made before lockout occurs.  
A value of zero means inheriting the default of three tries for normal users and five for administrators. Setting this to -1 will disable the feature.
- **Username prefix/Username suffix:** Necessary in order to generate a username for the service, in the format: **prefix<client\_id>-<service\_id>suffix**

Allow playback (Restricting access to transcoding may cause playback failures in clients due to unsupported media formats)

- **media**
- **audio that requires transcoding**
- **video that requires transcoding**
- **video that requires conversion without re-encoding**

## Feature access:

- **Allow Live TV access**
- **Allow Live TV recording management**
- **Force transcoding of remote media sources such as Live TV**

## Links

- **Link to instruction:** Link to the instruction, if filled out, it will be reflected in the client area
