

# License Activation

## Jellyfin module **WISECP**

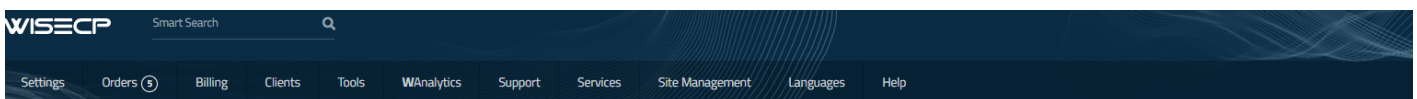

[Order now](#) | [Download](#) | [FAQ](#)

1. Log in to the administrative area of your **WISECP**.
2. Go to module configuration.

Services -> Service Management -> Module Settings -> Other -> All Modules -> PUQ Jellyfin

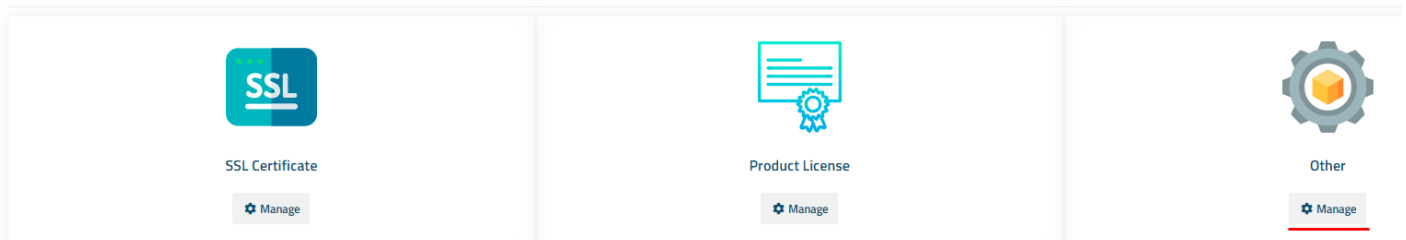

The screenshot shows the WISECP dashboard with a dark blue header. The navigation menu includes Settings, Orders (5), Billing, Clients, Tools, WAnalytics, Support, Services, Site Management, Languages, and Help. The Services menu is open, showing options like Service Management, Hosting Management, Domain Name Registration, Software Services, Add Group, Module Settings, Addons, and Order Requirements. Below the menu, there are two summary cards: 'Today Sales (Turnover)' for €0 and 'Current Month Expenses' for €0.

This screenshot shows the WISECP dashboard navigation menu, which is identical to the one in the previous screenshot.

### Module Settings

The Module Settings page displays three configuration cards, each with a 'Manage' button:

- SSL Certificate**: Represented by a blue square icon with 'SSL' text.
- Product License**: Represented by a blue icon of a document with a ribbon seal.
- Other**: Represented by a grey gear icon with a yellow cube inside.
