## Overview

The Settings page allows you to select the active navbar style for the WHMCS client area.

PUQ Menu Manager

Settings

**Navbar Style**

Choose a visual style for the client area Primary Navbar. Select a style below and click Save.

 <b>Default WHMCS</b> Standard WHMCS navbar appearance with no modifications	 <b>Modern Shadow</b> Clean design with subtle shadows, smooth hover transitions and refined typography	 <b>Dark Elegant</b> Dark background navbar with light text, elegant hover effects and premium feel
 <b>Gradient Wave</b> Vibrant gradient backgrounds on hover, colorful and eye-catching transitions	 <b>Minimal Underline</b> Ultra-clean design with animated underline effects on hover, no borders	 <b>Rounded Pill</b> Rounded pill-shaped items with soft shadows and friendly, approachable design
 <b>Glass Morphism</b> Frosted glass effect with blur, transparency and modern glassmorphism aesthetic	 <b>Neon Glow</b> Vibrant neon glow effects on hover with dark background and luminous accents	 <b>Flat Material</b> Google Material Design inspired with elevation shadows and ripple-like effects
 <b>Classic Bordered</b> Traditional bordered design with clean lines, separators and classic aesthetics

# Navbar Style

The main section of the Settings page displays all available navbar styles as selectable cards. Each card shows:

- **Style icon** — a colored icon representing the style
- **Style name** — the name of the style
- **Description** — a brief description of the visual effect

Click on a style card to select it. The currently active style is highlighted with a border.

## Available Styles

Style	Description
<b>Default WHMCS</b>	Standard WHMCS navbar appearance with no modifications
<b>Modern Shadow</b>	Clean design with subtle shadows, smooth hover transitions and refined typography
