

# Email Template

## (puqMikrotikVPN notification traffic limit)

Mikrotik VPN module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

## Creating the email template

Navigate to **System Settings** → **Email Templates** → **Create New Email Template**

This template is used to notify the customer when the remaining traffic falls below the threshold configured in the product settings ("Notification traffic remainder less than X GB").

## Template configuration

Parameter	Value
<b>Email Type</b>	Product/service
<b>Unique Name</b>	puqMikrotikVPN notification traffic limit

## Email subject

Traffic less than `{notification_traffic_remainder}` GB - `{username}`

## Email body

Dear `{client_name}`,

This letter informs you that the traffic limit of the service is coming to an end.

Product/Service: `{service_product_name}`

Due Date: `{service_next_due_date}`

Username: `{username}`

Left traffic: `{traffic_balance_gb}` GB

After renewing the service, `{traffic_billingcycle_gb}` GB will be automatically added.

`{signature}`

## Available template variables

The following custom variables are passed to the email template by the module:

Variable	Description	Example
<code>{username}</code>	VPN account username	mikrotik-user-42
<code>{notification_traffic_remainder}</code>	Traffic threshold configured in product settings (GB)	5
<code>{traffic_balance_gb}</code>	Remaining traffic balance for the customer (GB)	4.2
<code>{traffic_billingcycle_gb}</code>	Traffic that will be added on the next billing cycle (GB)	100

In addition, all standard WHMCS product/service merge fields are available (e.g. `{client_name}`, `{service_product_name}`, `{service_next_due_date}`, `{signature}`).

**Note:** Notifications are sent automatically during the WHMCS cron execution

when remaining traffic falls below the threshold configured in the product settings.
