Usage-Based Billing Metrics

When WHMCS Metric Billing is enabled for the product, clients can track their current traffic consumption and billing rates under the **Metrics** tab on their service management page.

Metrics Tab Overview

The tab presents:

- **Bandwidth Usage Download (GB)** — cumulative downloaded data counted towards usage-based billing.
 - **Bandwidth Usage Upload (GB)** — cumulative uploaded data counted towards usage-based billing.
 - **Pricing** — unit price charged per gigabyte (e.g. `$10.00 / GB`).
 - **Last Update** — relative time when metrics were last synchronized from the Mikrotik router by the WHMCS cron job.
