To create a new VPN account, you need to click on the **"Add VPN Account"** button on the main screen of the product.

In the opened window, you need to enter the account name for identification, as well as select an IP address for the account that the account will use. Don't forget to click the **"Add VPN Account"** button.

The screenshot shows a web form titled 'Add VPN account'. At the top, there is a 'Turn Back' button with a left-pointing arrow. Below the title, there are two input fields. The first field is labeled 'Name' with a person icon and contains the text 'cam12'. The second field is labeled 'IP address' with a network icon and contains the text '192.168.101.12'. At the bottom of the form, there is a green rounded button with a person icon and the text 'Add VPN account'.

Port Forwarding

Mikrotik WireGuard Business-VPN module

WISECP

[Order now](#) | [Download](#) | [FAQ](#)

To access the port forwarding settings, you need to click on the "**Port Forwarding**" button on the main screen of the product.

To create a new port forwarding rule, enter the port you want to forward, select the protocol, choose the VPN account from the dropdown list to which the port will be forwarded, and enter the port to which the forwarding will occur. After filling in the details, press the "**Add Port Forwarding**" button.
