Mikrotik WireGuard Business-VPN module

WISECP

[Order now](#) | [Download](#) | [FAQ](#)

If you do not have a **Service Group** where you want to place the new service, you need to create a new **Service Group**

1. Log in to the administrative area of your **WISECP**.
2. Create New Service Group

Go to

Services -> Service Management -> Add Group

The screenshot displays the WISECP administrative interface. At the top, there is a dark blue header with the WISECP logo and a 'Smart Search' bar. Below the header is a navigation menu with tabs: Settings, Orders (5), Billing, Clients, Tools, WAnalytics, Support, Services (selected), Site Management, Languages, and Help. The 'Services' tab is active, showing a dropdown menu with options: Service Management, Add Group (highlighted with a red underline), Hosting Management, Module Settings, Domain Name Registration, Addons, Software Services, and Order Requirements. Below the navigation menu, the dashboard features several widgets. On the left, there is a 'Today Sales (Turnover)' widget showing '€0' for 'Yesterday'. In the center, there is a 'Current Cash' widget showing '€0'. On the right, there is a 'Current Month Expenses' widget showing '€0'.

Enter all the necessary data and click the '**Create Group**' button.

Module **PUQ Mikrotik WireGuard Business-VPN** **▼**

Server Group	Default (Servers: 1) ▼	Number of VPN Accounts	5
Bandwidth Download	5 in megabits (M)	Bandwidth Upload	5 in megabits (M)
Comment prefix	puq-5-	Port forwarding	<input checked="" type="checkbox"/> Enable port forwarding
Internal traffic	<input checked="" type="checkbox"/> Allow internal traffic	NAT rules on public ip	<input checked="" type="checkbox"/> The module will automatically make firewall rules that will make NAT
Firewall Drop Rules	<input checked="" type="checkbox"/> The module automatically creates firewall rules that will drop traffic between VPN client accounts and other private networks on the router	Persistent Keepalive	25
Interface MTU	1420	AllowedIPs	0.0.0.0/0
Link to instruction	https://puq.pl/ A link to the instruction will be reflected in the client area.	Link to VPN clients	https://puq.pl/ A link to the instruction will be reflected in the client area.
Automatic Setup	<input checked="" type="checkbox"/> Please activate for automatic installation of the order. Otherwise, administrator approval is required.		

Edit Product

4. Fill in the configuration options according to your preferences.

- **Server Group** is the group of servers from which a server will be chosen for provisioning the service
- **Number of VPN Accounts:** the quantity of VPN user accounts a client can create within this package
- **Bandwidth Download** and **Bandwidth Upload** represent the connection speed that will be restricted by these parameters, in megabits per second, respectively.
- **Comment Prefix** will be added at the comment in **MikroTik**
- **Port Forwarding:** If the checkbox is selected, it means the client will have the ability to redirect ports from the main public address to internal addresses.
- **Internal Traffic:** If the checkbox is selected, it indicates that internal traffic between

VPN clients of the client will be allowed.

- **NAT Rules on Public IP:** If the checkbox is selected, firewall rules, specifically NAT (Network Address Translation) to the public IP address, will be created during the service deployment.
- **Persistent Keepalive/AllowedIPs:** parameters of configuration WireGuard clients
- **Interface MTU:** This parameter will be set during the creation of the WireGuard interface.
- **Link to Instruction** Provide the link to the instruction for the service, and it will be displayed in the client area as a separate button
- **Link to VPN Clients** Provide the link to the page for downloading VPN clients for the service, and it will be displayed in the client area as a separate button
