Mikrotik WireGuard Business-VPN module

WISECP

[Order now](#) | [Download](#) | [FAQ](#)

If you do not have a **Service Group** where you want to place the new service, you need to create a new **Service Group**

1. Log in to the administrative area of your **WISECP**.
2. Create New Service Group

Go to

Services -> Service Management -> Add Group

The screenshot displays the WISECP administrative interface. At the top, there is a dark blue header with the WISECP logo and a 'Smart Search' bar. Below the header is a navigation menu with tabs: Settings, Orders (5), Billing, Clients, Tools, WAnalytics, Support, Services (selected), Site Management, Languages, and Help. The 'Services' tab is active, showing a dropdown menu with options: Service Management, Add Group (highlighted with a red underline), Hosting Management, Module Settings, Domain Name Registration, Addons, Software Services, and Order Requirements. Below the navigation menu, the dashboard features several widgets. On the left, there is a 'Today Sales (Turnover)' widget showing '€0' for 'Yesterday'. In the center, there is a 'Current Cash' widget showing '€0'. On the right, there is a 'Current Month Expenses' widget showing '€0'.

Enter all the necessary data and click the '**Create Group**' button.

The screenshot shows the 'Create New Service Group' form in the WISECP dashboard. The form is titled 'Create New Service Group' and includes a green banner at the top stating: 'Create a new service group, you can also create new categories and manage the existing one from here.' The form is divided into two columns. The left column contains labels for various fields: Title, Short Detail, Listing Template, Status, Background Image, Group Colour, Order Upgrades, and External HTML Code. The right column contains the corresponding input fields: a text field for 'Title' with the value 'VPN', a text field for 'Short Detail' with the value 'Short Group Description', a radio button selection for 'Listing Template' (selected 'Box List', unselected 'Horizontal List'), a dropdown menu for 'Status' with the value 'Enable', a file upload area for 'Background Image' with a placeholder image and a trash icon, a text field for 'Group Colour' with the value '#FFFFFF', a checkbox for 'Order Upgrades' (unselected) with the label 'Allow clients to upgrade to higher package in the same service group', and a text area for 'External HTML Code' with the placeholder text 'Paste your HTML code to this field (Optional)'. At the bottom of the form, there is a small note: 'You can optionally add external HTML code and customize it. There should not be any incorrect or incomplete HTML codes, otherwise page structure will be empty.'

3. Adding a New Service

Go to

Services -> our service group where you need to add the new service.

In the opened window, click the '**Create New Service**' button.

Edit Product

4. Fill in the configuration options according to your preferences.

- **Server Group** is the group of servers from which a server will be chosen for provisioning the service
- **Number of VPN Accounts:** the quantity of VPN user accounts a client can create within this package
- **Bandwidth Download** and **Bandwidth Upload** represent the connection speed that will be restricted by these parameters, in megabits per second, respectively.
- **Comment Prefix** will be added at the comment in MikroTik
- **Port Forwarding:** If the checkbox is selected, it means the client will have the ability to redirect ports from the main public address to internal addresses.
- **Internal Traffic:** If the checkbox is selected, it indicates that internal traffic between

VPN clients of the client will be allowed.

- **NAT Rules on Public IP:** If the checkbox is selected, firewall rules, specifically NAT (Network Address Translation) to the public IP address, will be created during the service deployment.
- **Persistent Keepalive/AllowedIPs:** parameters of configuration WireGuard clients
- **Interface MTU:** This parameter will be set during the creation of the WireGuard interface.
- **Link to Instruction** Provide the link to the instruction for the service, and it will be displayed in the client area as a separate button
- **Link to VPN Clients** Provide the link to the page for downloading VPN clients for the service, and it will be displayed in the client area as a separate button
