### Add new product to WHMCS

System Settings->Products/Services->Create a New Product

In the **Module settings** section, select the "**PUQ Mikrotik WireGuard VPN**" module

**License key:** A pre-purchased license key for the "**PUQ Mikrotik WireGuard VPN**"

The screenshot shows the 'Module Settings' section for the 'PUQ Mikrotik WireGuard VPN' module. It includes a 'License key' field with a success message, a 'WireGuard interface' dropdown set to 'wireguard1', and an 'Additional settings' section with fields for 'Comment PREFIX', 'Link to instruction', and 'Link to VPN clients'. A detailed list of configuration options is provided below the screenshot.

- **WireGuard interface:** A pre-created WireGuard server on a Mikrotik router, which will serve as peers for clients of this service.
- **Comment PREFIX:** The prefix that will be added to the VPN user's comment on the Mikrotik router
- **Bandwidth Download:** Download Bandwidth Limit in M/s
- **Bandwidth Upload:** Upload Bandwidth Limit M/s
- **DNS Servers:** Option in WireGuard client configuration
- **AllowedIPs:** Option in WireGuard client configuration
- **Persistent Keepalive:** Option in WireGuard client configuration
- **Link to instruction:** Link to the instruction, if filled out, it will be reflected in the client area
- **Link to VPN clients:** The URL that will be shown to the client in the client panel in order to download the VPN client
