Order Detail

Mikrotik WireGuard VPN module **WISECP**

Order now | Download | FAQ

Navigate to the service you want to manage, then go to the '**Core**' tab.

In the opened tab, you have a view of the online status of the service. The available online information includes:

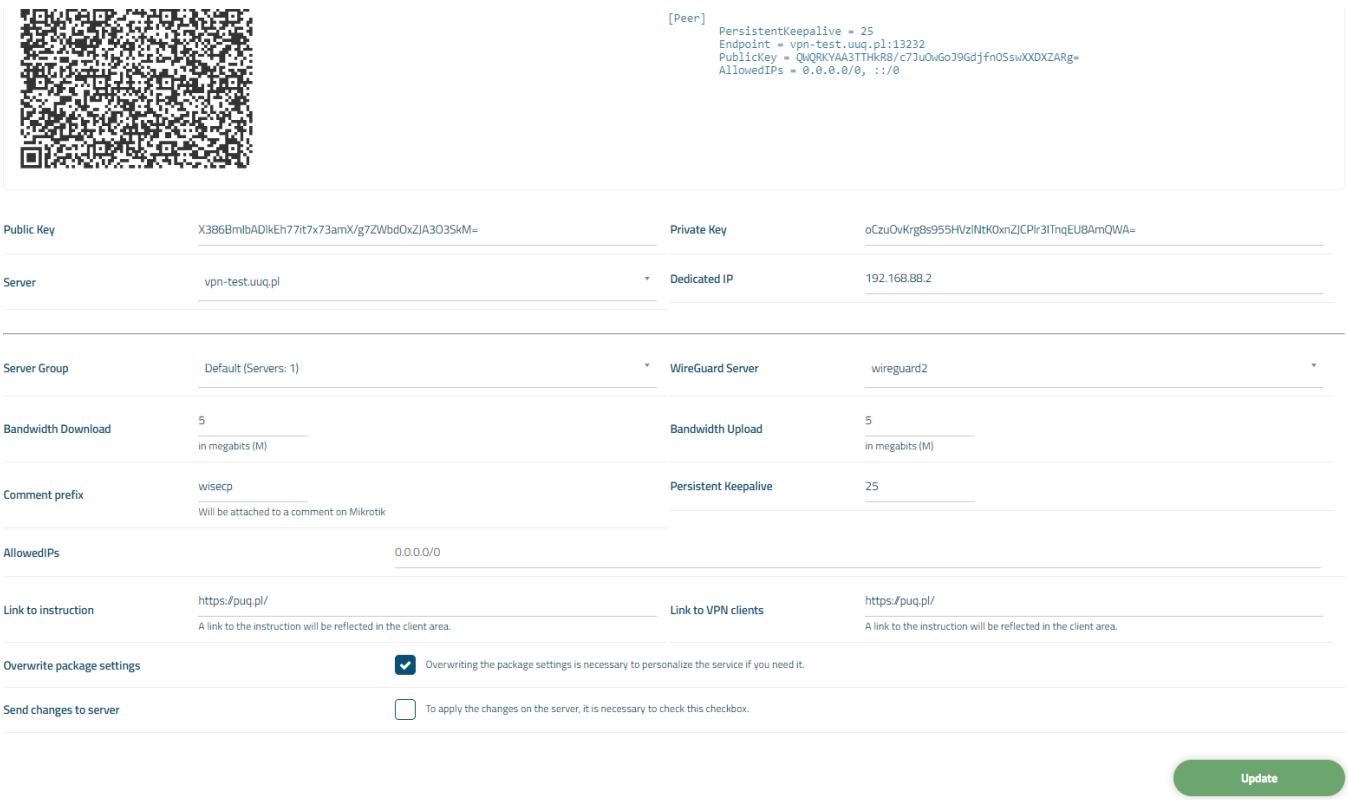

- Connection status to the API
- Information about the VPN account on the **MikroTik** router
- Information about the account

Also, below are fields with the client's personal data.

You can also individually override package options for the client by checking the '**Overwrite package settings**

' box.

After modifying the configuration options, check the '**Send changes to server**' box to save the data to the **MikroTik** server.
