Overwrite package settings

☐ Overwriting the package settings is necessary to personalize the service if you need it.

Send changes to server

☐ To apply the changes on the server, it is necessary to check this checkbox.

Update

in the opened tab, you have a view of the online status of the service. The available online information includes:

- **Update Policy** button sets the required policy upon clicking, provided that the free space = 0, it sets a limited policy; otherwise, it sets the default policy
- **Set Standard Policy** button sets the standard policy
- **Set Limited Policy** button sets the limited policy
- Attention, automatic policy change process occurs once per hour, so after the policy is changed forcibly, the policy will return to the correct state.
- Connection status to the API
- Information about user account on the MinIO server

- Diagnostic information about the account
- List of buckets and their size and contents

Also, below are fields with the client's personal data, such as Username, Password, Server

You can also individually override package options for the client by checking the '**Overwrite package settings**' box.

wise2-160cp-default	0 GB	U	2024-05-14 12:34:30Z
wise2-160cp-default2	0.0001 GB	1	2024-05-14 12:34:40Z
wise2-160cp-default3	1.6095 GB	5	2024-05-14 12:34:30Z
wise2-160cp-default34	2.9458 GB	9	2024-05-14 12:34:17Z

Server
