

# Service/Product configuration

## MinIO S3 module **WISECP**

[Order now](#) | [Download](#) | [FAQ](#)

If you do not have a **Service Group** where you want to place the new service, you need to create a new **Service Group**

1. Log in to the administrative area of your **WISECP**.
2. Create New Service Group

Go to

Services -> Service Management -> Add Group

The screenshot displays the WISECP administrative interface. At the top, there is a dark blue header with the WISECP logo, a 'Smart Search' bar, and a navigation menu with items: Settings, Orders (5), Billing, Clients, Tools, WAnalytics, Support, Services (highlighted), Site Management, Languages, and Help. Below the header, the 'Services' dropdown menu is open, showing options: Service Management, Add Group (highlighted with a red underline), Hosting Management, Module Settings, Domain Name Registration, Addons, Software Services, and Order Requirements. On the left side of the dashboard, there are two widgets: 'Today Sales (Turnover)' showing '€0' for 'Yesterday' and 'Current Month Expenses' showing '€0'.

Enter all the necessary data and click the '**Create Group**' button.
