Grouping Client Products

To use this custom functionality, you must have whmcs installed and configured, with access to the whmcs system and to the whmcs file system with administrator rights.

Install and unzip grouping_client_products.zip

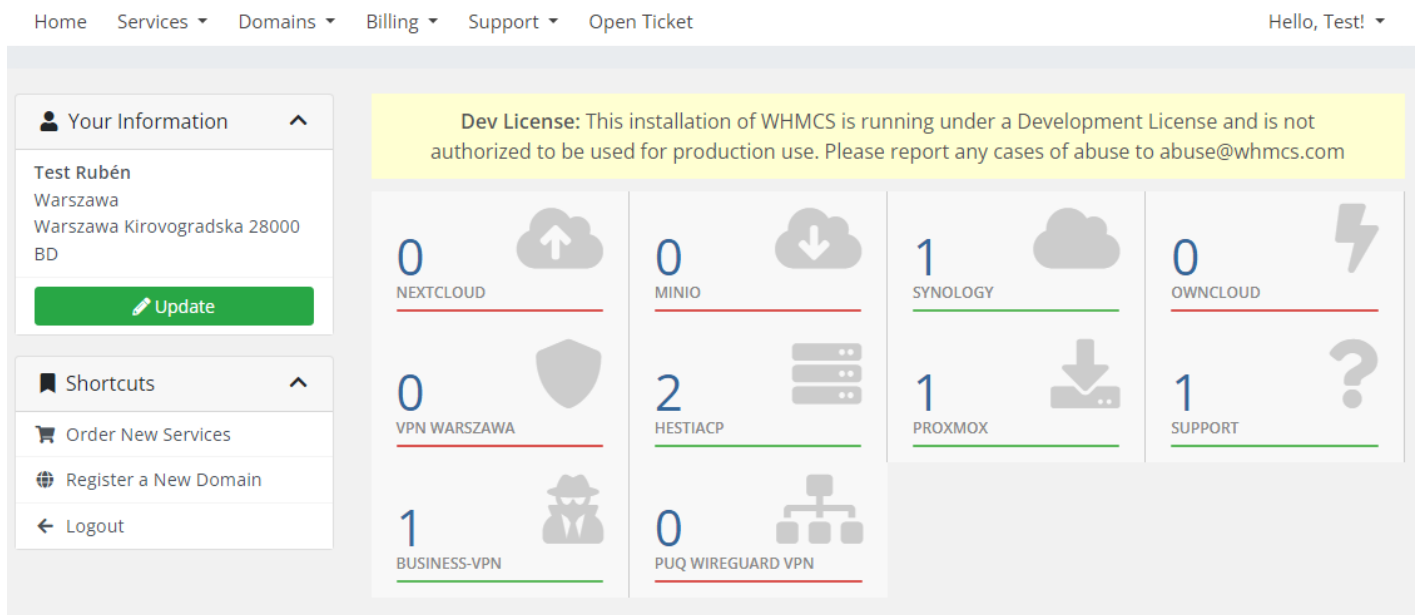

Move the `hooks_grouping_client_products.php` file to `includes>hooks`

Move the `grouping_client_products.tpl` file to `templates>twenty-one`

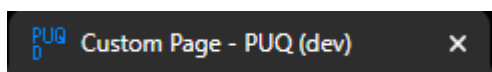

Move the `grouping_client_products.php` file to the root of your code, i.e. to all other php files

To open this page enter `https://your.domain/grouping_client_products.php`

When you change the name of a .php file, the link `https://your.domain/your_file.php` also changes

To change the page title,

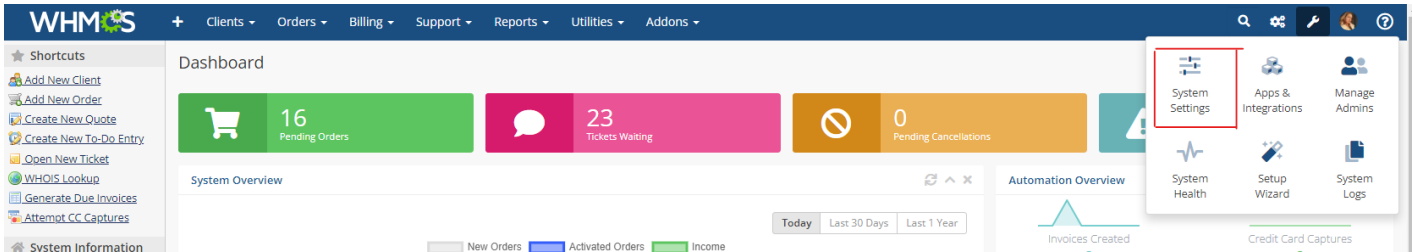

you need to change in grouping_client_products.php

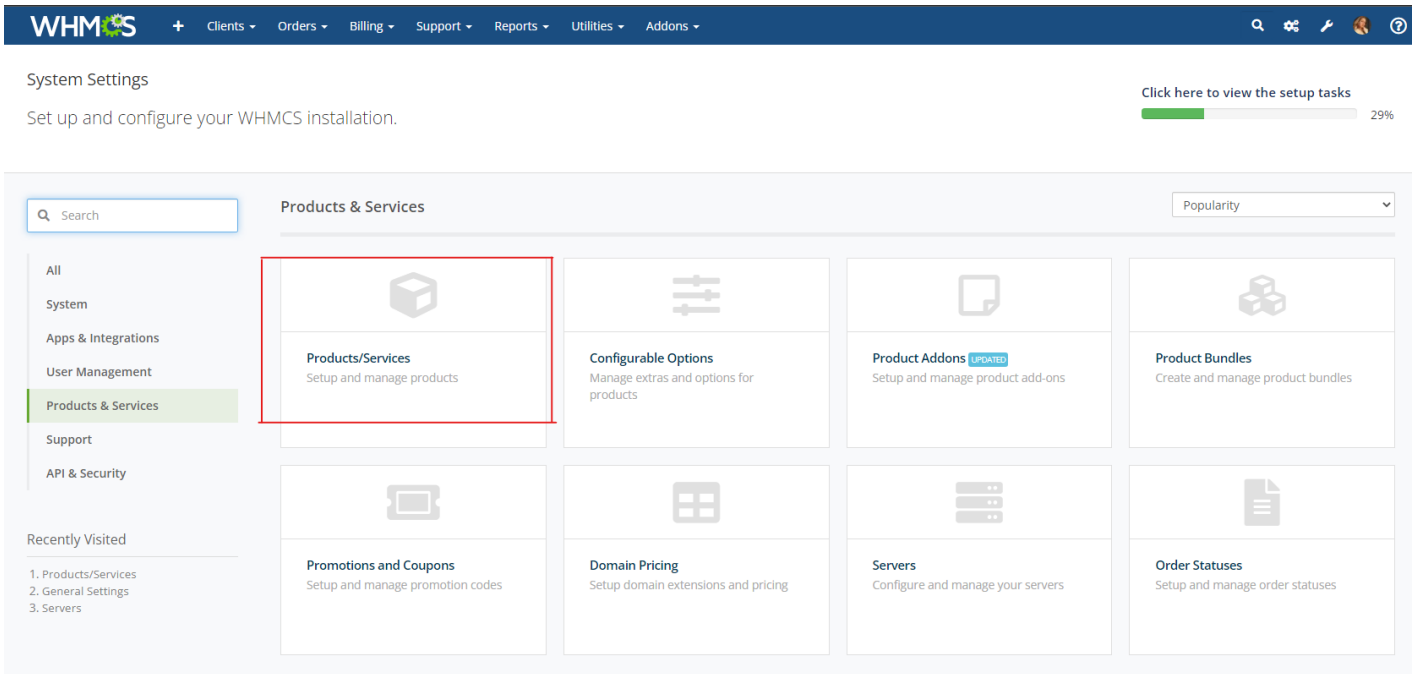

```
<?php
//Enter the page title in $title_of_page
$title_of_page = "your title";
```

Let's move on to the external changes. To add/change an icon to a product group, you need to:

- 1. Log in to WHMCS on the admin panel
- 2. Go to System Settings.

Navigate to Products/Services.

Select the first product from the group and click on Edit
