Client area home screen

The end customer, after logging in to the client panel, sees the service management page with the following sections:

Service information

- **User manual** — a button linking to the instruction URL (only displayed if configured by the administrator in product settings, "Link to instruction" field)
- **Web interface address** — clickable link to the ownCloud server (automatically handles HTTPS/HTTP and non-standard ports)
- **Username** — the ownCloud username with a **copy-to-clipboard** button
- **Password** — displayed according to the "Show password" product setting:
 - **Show button** — password is hidden by default, revealed when the user clicks the show button; copy-to-clipboard button is always available
 - **Plain text** — password is always visible in plain text; copy-to-clipboard button available
 - **No** — password is completely hidden with no option to reveal

Disk usage

- **Pie chart** — visual representation of used vs. free disk space (powered by Google Charts)
- **Data table** with the following fields:
 - Disk limit (displays "Unlimited" if quota is set to 0)
 - Disk used
 - Disk free
 - Disk used percentage

- Disk free percentage

Sidebar navigation

The client area sidebar contains two menu items:

- **Information** — the main service details page (described above)
- **Used space statistics** — historical disk usage charts (see [Disk statistics](#) page)

“ **Note:** If the service status is not Active or if the ownCloud user cannot be found, an error page is displayed instead.
