

Contact Form

Page Manager addon **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

The Contact Form widget renders a fully customizable form that submits visitor messages directly to a WHMCS support department. Form fields are configurable with a visual editor supporting multiple input types, validation patterns, and required flags.

Settings

Form Settings

Setting	Type	Default	Description
department_id	text	—	WHMCS support department ID to receive submitted tickets

Setting	Type	Default	Description
subject_default	text	—	Pre-filled subject line for the generated support ticket
success_message	text	<code>Thank you! Your message has been sent.</code>	Message shown to the visitor after a successful submission
button_text	text	<code>Send Message</code>	Label on the submit button
button_color	color	<code>#6420c0</code>	Background color of the submit button

Form Fields

Fields are defined with a visual row editor. Each row has the following columns:

Column	Description
Name	Internal field name (used as the form input <code>name</code> attribute)
Label	Human-readable label shown above the field
Type	Input type: <code>text</code> , <code>email</code> , <code>textarea</code> , <code>select</code> , <code>tel</code> , <code>number</code> , or <code>hidden</code>
Options	Comma-separated list of options for <code>select</code> type fields
Pattern	Optional regex validation pattern (e.g. <code>^[A-Za-z]+\$</code>)
Required	Checkbox — marks the field as mandatory

Default fields: `name` (text, required), `email` (email, required), `message` (textarea, required).

Fields can be added, removed, and reordered using the visual editor.

Layout Settings

Setting	Type	Default	Description
width	text	—	CSS width of the widget container (e.g. <code>800px</code> , <code>100%</code>)
margin_top	text	—	CSS top margin (e.g. <code>20px</code>)
margin_bottom	text	—	CSS bottom margin (e.g. <code>20px</code>)

Setting	Type	Default	Description
style	select	puq	Visual style template
background_image	text	—	URL of the background image
background_color	color	#FFFFFF	Background color of the widget container
disable_background_shadow	checkbox	off	Remove the drop shadow from the container
disable_background_radius_top	checkbox	off	Remove the top border radius from the container
disable_background_radius_bottom	checkbox	off	Remove the bottom border radius from the container
disable_background	checkbox	off	Disable the background container entirely
full_width	checkbox	off	Stretch the widget to the full page width

Style Templates

Template	Description
puq	Default contact form style
