

Domain TLD

Page Manager addon **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

The Domain TLD widget displays domain extension pricing fetched from the WHMCS [GetTLD Pricing](#) API. TLD entries can be defined manually in the admin editor or pulled randomly from WHMCS. Each TLD supports a promotional label (Hot, New, Sale), an IDN flag, and a custom image.

Admin Settings

The screenshot shows the 'Domain TLD' admin settings interface. It includes fields for width, margin-top, margin-bottom, and style (set to 'puq'). There are six color selection boxes for Color 1 through Color 6. The 'Background image/color' section has a text input, a 'Disable Shadow' checkbox, and 'Disable Radius top' and 'Disable Radius bottom' checkboxes. The 'Header' section has a text input 'Secure your domain name', a 'Text color' selector, and a 'Disable header' checkbox. The 'Year' field has a text input 'year'. The 'Hot label/color' section has a text input 'Hot', a red color selector, and a 'Text color' selector. The 'New label/color' section has a text input 'New', a green color selector, and a 'Text color' selector. The 'Sale label/color' section has a text input 'Sale', an orange color selector, and a 'Text color' selector. The 'IND label/color' section has a text input 'IND', a grey color selector, and a 'Text color' selector. The 'View all pricing button name' section has a text input 'View all pricing', a 'Button color' selector, a 'Text color' selector, and a 'Disable view all pricing button' checkbox. The 'Max show' field has a value of 0 and a 'Show randomly from WHMCS' checkbox. At the bottom, there is a table with columns: ILD, IMG, Promotion, IDN, and an empty column. The first row contains 'com', an empty input, 'Hot', an IDN checkbox, and three action buttons (up, down, delete).

Settings

Display Settings

Setting	Type	Default	Description
max_show	number	0	Maximum number of TLD entries to display (0 = show all)
show_randomly_whmcs	checkbox	off	Pull TLD pricing randomly from WHMCS instead of using the manual list

Header

Setting	Type	Default	Description
header	text	Secure your domain name	Heading text above the TLD table
header_text_color	color	#000000	Color of the header text

Setting	Type	Default	Description
disable_header	checkbox	off	Hide the header entirely
year	text	year	Label used for the pricing period (e.g. year , /yr)

Promotional Labels

Setting	Type	Default	Description
hot_label	text	Hot	Text shown on the Hot badge
hot_color	color	#d51111	Background color of the Hot badge
hot_text_color	color	#ffffff	Text color of the Hot badge
new_label	text	New	Text shown on the New badge
new_color	color	#5cb75c	Background color of the New badge
new_text_color	color	#4f1998	Text color of the New badge
sale_label	text	Sale	Text shown on the Sale badge
sale_color	color	#eeac4e	Background color of the Sale badge
sale_text_color	color	#000000	Text color of the Sale badge
idn_label	text	IND	Text shown on the IDN badge
idn_color	color	#767676	Background color of the IDN badge
idn_text_color	color	#dfdfd	Text color of the IDN badge

View All Pricing Button

Setting	Type	Default	Description
view_all_pricing_button_namtext		View all pricing	Label on the pricing button
view_all_pricing_button_color	color	#0de1b9	Background color of the pricing button

Setting	Type	Default	Description
view_all_pricing_button_text_color	color	<code>#6420c0</code>	Text color of the pricing button
disable_view_all_pricing_button	checkbox	off	Hide the view all pricing button

Color Settings

Setting	Type	Default	Description
color_1	color	<code>#6420c0</code>	Primary UI color
color_2	color	<code>#0de1b9</code>	Secondary UI color
color_3	color	<code>#6420c0</code>	Tertiary UI color
color_4	color	<code>#d41111</code>	Quaternary UI color
color_5	color	<code>#a484d5</code>	Fifth UI color
color_6	color	<code>#000000</code>	Sixth UI color

TLD Entries

TLD entries are managed with a visual table editor. Each row defines one TLD:

Column	Description
TLD	The domain extension (e.g. <code>.com</code> , <code>.net</code>)
IMG	URL of a logo or flag image for the TLD
Promotion	Badge to display: none, <code>Hot</code> , <code>New</code> , or <code>Sale</code>
IDN	Checkbox — marks the TLD as IDN-supported

Rows can be added, removed, and reordered using the arrow buttons.

Layout Settings

Setting	Type	Default	Description
width	text	—	CSS width of the widget container (e.g. <code>800px</code> , <code>100%</code>)

Setting	Type	Default	Description
margin_top	text	—	CSS top margin (e.g. <code>20px</code>)
margin_bottom	text	—	CSS bottom margin (e.g. <code>20px</code>)
style	select	<code>puq</code>	Visual style template
background_image	text	—	URL of the background image
background_color	color	<code>#FFFFFF</code>	Background color of the widget container
disable_background_shadow	checkbox	off	Remove the drop shadow from the container
disable_background_radius_top	checkbox	off	Remove the top border radius from the container
disable_background_radius_bottom	checkbox	off	Remove the bottom border radius from the container
disable_background	checkbox	off	Disable the background container entirely
full_width	checkbox	off	Stretch the widget to the full page width

Style Templates

Template	Description
<code>puq</code>	Default domain TLD pricing table style
