FREQUENTLY ASKED QUESTIONS

01 What is web hosting and why do I need it?

Web hosting is a service that allows your website to be accessible on the internet. When you purchase hosting, you rent space on a server where your website files are stored. Without hosting, your website would not be visible to anyone online. Think of it as renting a storefront for your online business.

05 Do you provide SSL certificates?

Yes! All our hosting plans include free SSL certificates powered by Let's Encrypt. SSL encrypts the connection between your visitors and your website, protecting sensitive data. It also improves your search engine ranking and displays the padlock icon in browsers, building trust with your visitors.

02 What is the difference between shared, VPS, and dedicated hosting?

Shared hosting means multiple websites share one server — it is affordable but has limited resources. VPS (Virtual Private Server) gives you dedicated resources on a shared machine — better performance and control. Dedicated hosting provides an entire physical server just for you — maximum power, security, and customization for high-traffic sites.

06 What control panel do you use?

We provide cPanel/WHM — the industry-standard control panel for web hosting management. It offers an intuitive interface for managing your files, databases, email accounts, domains, DNS settings, backups, and much more. One-click installers for WordPress, Joomla, and 400+ other applications are included.

03 How do I transfer my existing website to your servers?

We offer free website migration for all new customers. Our technical team will handle the entire process including files, databases, and email accounts. The migration typically takes 24-48 hours and is performed with zero downtime. Simply open a support ticket after signing up and we will take care of everything.

07 How does your billing work?

We offer flexible billing cycles: monthly, quarterly, semi-annually, and annually. Longer billing periods come with significant discounts. We accept all major credit cards, PayPal, and bank transfers. You can upgrade or downgrade your plan at any time, and unused credits will be applied to your new plan.

08 What kind of support do you offer?

Our expert support team is available 24/7/365 via live chat, email

How do I transfer my existing website to your servers? ▾

What uptime guarantee do you provide? ▲

We guarantee 99.9% uptime for all hosting plans. Our infrastructure is built on enterprise-grade hardware with redundant power supplies, network connections, and storage systems. In the rare event we fail to meet this guarantee, you will receive account credits as outlined in our Service Level Agreement.

question-answer-11-style-split.png

Settings

Layout

Setting	Description
width	Widget container width (e.g. <code>100%</code> , <code>900px</code>)
margin-top	Top margin of the widget block
margin-bottom	Bottom margin of the widget block

Setting	Description
Style	Visual style template (puq , puq-border , puq-bubble , puq-cards , puq-grid , puq-minimal , puq-neon , puq-split , puq-tabs , puq-timeline)

Colors

Setting	Description
Question text (color_1)	Color of the question text
Question panel (color_2)	Background color of the question panel
Question panel hover (color_3)	Background color of the question panel on hover
Answer text (color_4)	Color of the answer text
Answer panel (color_5)	Background color of the answer panel
Color 6 (color_6)	Additional accent color used by certain styles

Background

Setting	Description
Background image	URL of the background image for the widget container
Background color	Background color of the widget container
Disable Shadow	Remove the drop shadow from the widget container
Disable Radius top	Remove top corner rounding
Disable Radius bottom	Remove bottom corner rounding
Disable Background	Remove the background panel entirely
Full width	Stretch the widget to the full page width

Header

Setting	Description
Header	Heading text above the Q&A list (e.g. Frequently Asked Questions)
Text color	Color of the header text
Disable header	Hide the header text

Q&A Items

Use the + button to add question and answer pairs. Each row contains:

Field	Description
Question	The question text displayed in the collapsed panel
Answer	The answer content shown when the panel is expanded (supports rich text)

Items can be reordered with the up/down arrows and removed with the delete button.
