## Summary Cards

The top section displays four key metrics:

| Metric                 | Description   |
|------------------------|---|
| <b>Total Products</b>  | Total number of products configured in WHMCS          |
| <b>Product Groups</b>  | Number of product groups                              |
| <b>Active Services</b> | Total services with Active status across all products |
| <b>Total Services</b>  | Total number of services across all statuses          |

---

# Products Table

A sortable and searchable table listing every product with the following columns:

| Column                      | Description   |
|-----------------------------|---|
| <b>#</b>                    | Product ID in WHMCS                                     |
| <b>Product Name</b>         | Name of the product (clickable link)                    |
| <b>Type</b>                 | Product type (hostingaccount, server, other, etc.)      |
| <b>Group</b>                | Product group the product belongs to                    |
| <b>Active</b>               | Number of active services (green badge)                 |
| <b>Suspended</b>            | Number of suspended services (yellow badge)             |
| <b>Terminated/Cancelled</b> | Number of terminated and cancelled services (red badge) |
| <b>Total</b>                | Total number of services for this product               |

The table supports real-time search filtering and column sorting.
