

Configuration

PUQ Customization module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

The screenshot displays the configuration interface for the PUQ Mantic extension. On the left is a sidebar menu with options like 'Cancel Fund Invoices', 'Client Data Archive', 'Clients Only Access', 'Credit Management', 'Disabler of standard elements', 'Export JPK', 'GDPR Tools', 'Head/Footer Output', 'Maintenance Mode', 'Menu Manager', 'Overwrite Suspend/Termination', 'Pages Manager', 'Prorated Next Due Date', 'Service Data Archive', 'Show Services IP, Username', 'Support Hours Widget', and 'Configuration'. The 'Configuration' option is selected. The main panel contains the following settings:

- Enabled:** YES (dropdown). Description: Enable or disable all custom functions.
- Panel Title:** Support Hours (text input). Default: If you leave empty it will show (Support Hours). Below the input is a button: Show all languages.
- Online Notice:** We are online and will respond to your request soon! (text input). Default: If you leave empty it will show (We are online and will respond to your request soon!). Below the input is a button: Show all languages.
- Offline Notice:** We will reply the next business day. (text input). Default: If you leave empty it will show (We will reply the next business day.). Below the input is a button: Show all languages.
- Time format:** 24 (dropdown). Description: Time display format in the client area.
- Time zone:** Europe/Warsaw. Today's day of the week: Thursday. Server Time: 01:05. Support status: Online.
- Days and times of technical support ONLINE:** A table with columns for Day, Start Time, End Time, Day off, and 24 hours.

Day	Start Time	End Time	Day off	24 hours
Monday	0 :0	End Time 0 :0	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Tuesday	Start Time 09 :0	End Time 18 :0	<input type="checkbox"/>	<input type="checkbox"/>
Wednesday	Start Time 06 :0	End Time 0 :0	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Thursday	Start Time 0 :0	End Time 18 :0	<input type="checkbox"/>	<input type="checkbox"/>
Friday	Start Time 09 :0	End Time 0 :0	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Saturday	Start Time 0 :0	End Time 0 :0	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Sunday	Start Time 0 :0	End Time 0 :0	<input checked="" type="checkbox"/>	<input type="checkbox"/>

At the bottom right of the configuration panel is a 'Save Changes' button.

Enabled - Enabling or disabling all custom functions of this extension affects the automation and visibility of its features in the client area. When extension disabled, the automation capabilities and related features provided by the extension will not be active or visible to clients. However, as an administrator, you will still have access to configure and utilize the extension's functionalities through the administration interface. This gives you the flexibility to control the visibility and automation aspects of the extension based on your specific needs and preferences.

The extension provides the ability to display a widget in the client area on the support ticket submission page, indicating the support team's working hours and their online or offline status.

In the module configuration, you can set the following details:

1. **Panel Title:** The title of the widget (supports multi-language). You can specify the header for the widget that will be displayed in the client area. For example, "Support Hours".
2. **Online Notice:** The message displayed when the support team is online (supports multi-language). This message will be shown to the client when the support team is available to

respond. For example, "We are online and will respond to your request soon!".

3. Offline Notice: The message displayed when the support team is offline (supports multi-language). This message will be shown to the client when the support team is unavailable. For example, "We will reply the next business day."
4. Time format: The display format for time in the client area. You can choose between a 24-hour format or the AM/PM format.
5. Days and times of technical support availability: You can specify the working hours for the support team for each day of the week. Additionally, you have the option to mark a specific day as a day off or as a 24-hour working day.

Based on the configured settings, the extension will display the appropriate widget to the client, considering the working hours for each day of the week and the time of day. Please note that the support status will be processed based on the server's time zone in WHMCS, so it is advisable to set it according to your target audience's time zone.
