

# Configuration

[Order now](#) | [Download](#) | [FAQ](#)

The "Blocking Ticket for Guests" extension configuration page, a part of the PUQ Customization WHMCS Addon, offers a robust set of options to enhance your WHMCS user experience:

1. **Enable or Disable All Custom Functions:** If set to YES, this will enable all custom functions. If set to NO, it will disable them.

2. **Turn Off Client Area Primary Sidebar:** This option allows you to disable and enable the primary sidebar in the client area for either guests or registered users. The following items in the primary sidebar can be individually controlled:

3. **Turn Off Client Area Secondary Sidebar:** Similar to the primary sidebar, you can also control visibility of elements in the secondary sidebar for either guests or registered users. Elements in the secondary sidebar that can be individually controlled include:

4. **Turn Off Client Area Homepage Panels:** You can disable and enable various panels on
