# Configuration

## PUQ Customization module **WHMCS**

Order now | Download | FAQ

**Enabled** - Enabling or disabling all custom functions of this extension affects the automation and visibility of its features in the client area. When extension disabled, the automation capabilities and related features provided by the extension will not be active or visible to clients. However, as an administrator, you will still have access to configure and utilize the extension's functionalities through the administration interface. This gives you the flexibility to control the visibility and automation aspects of the extension based on your specific needs and preferences.

**Default days add -** The number of days that will be added with the default value in the Sustend After parameter
