

Configuration

PUQ Customization module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

The screenshot shows the WHMCS Configuration interface for the Credit Management module. On the left is a sidebar menu with options like Home, Auto CC Management, Cancel Fund Invoices, Client Data Archive, Clients Only Access, Credit Management (selected), Configuration, Clients, Disabler of standard elements, Export JPK, GDPR Tools, Head/Footer Output, Maintenance Mode, Menu Manager, Overwrite Suspend/Termination, and Pages Manager. The main content area is titled 'Configuration' and includes a 'Credit Management' info icon. The configuration options are: 'Enabled' set to 'YES' with a note 'Enable or disable all custom functions.'; 'Client area widget configuration' section containing 'Widget type' set to 'Both'; 'Amount' checkbox checked with label 'Show Amount available for use in the widget'; 'Add Funds' checkbox checked with label 'Show Add Funds button in the widget'; 'Auto apply credit switch' checkbox checked with label 'Show Auto apply credit switch in the widget'; and 'Label auto apply credit' set to 'Auto apply credit' with a note 'Default. If you leave empty it will show (Auto apply credit)'. A 'Show all languages' button is visible below the label. A 'Save Changes' button is at the bottom right.

Enabled - Enabling or disabling all custom functions of this extension affects the automation and visibility of its features in the client area. When extension disabled, the automation capabilities and related features provided by the extension will not be active or visible to clients. However, as an administrator, you will still have access to configure and utilize the extension's functionalities through the administration interface. This gives you the flexibility to control the visibility and automation aspects of the extension based on your specific needs and preferences.

Widget type:

- Sidebar
- Homepage Panel
- Both

Amount:

- Checkbox: Show amount available for use in the widget

Add Funds:

- Checkbox: Show "Add Funds" button in the widget

Auto apply credit switch:

- Checkbox: Show "Auto apply credit" switch in the widget

Label for auto apply credit (Default. If left empty, it will show "Auto apply credit")

These configuration options allow you to customize the appearance and functionality of the client area widget for the 'Credit Management' extension. You can choose the widget type, whether to display the amount available for use, the option to add funds, and the switch for enabling or disabling auto application of credit. Additionally, you can provide a custom label for the auto apply credit switch.
