This configuration will help you customize the cookie consent banner message on your website to match your site's style.

Enable Cookie Consent Message - You can easily activate or deactivate the cookie law notice,

which will be shown to users as a notice at the bottom of the page.

Position - Select one of the positions on the page for the cookie consent banner message.

Banner Width - Set the width of the cookie consent banner message on the page (does not work with **Position: bottom center**).
You can enter the width in the following formats: "100", "100px", "100%".

Banner Background Color - Choose the background color of the cookie consent banner message.

Banner Shadow Color - Choose the shadow color of the cookie consent banner message.

Cookie massage label - Set your own headline for the cookie consent banner message (supports multi-language).

Cookie message - Set your own message for the cookie consent banner message (supports multi-language).

Cookie Info Link - Add your own privacy policy page link.

Cookie Info Label - Set your own label for the information button on the cookie consent banner message (supports multi-language).

Info Background Color - Choose the background color of the information button on the cookie consent banner message.

Info Shadow Color - Choose the shadow color of the information button on the cookie consent banner message.

Cookie Accept Label - Set your own label for the accept button on the cookie consent banner message (supports multi-language).

Accept Background Color - Choose the background color of the accept button on the cookie consent banner message.

Accept Shadow Color - Choose the shadow color of the accept button on the cookie consent banner message.

> You can also click **"Get Default Color"** to set the default colors.
