This configuration will help you customize the cookie consent banner message on your website to match your site's style.

**Enable Cookie Consent Message** - You can easily activate or deactivate the cookie law notice,

which will be shown to users as a notice at the bottom of the page.

**Position** - Select one of the positions on the page for the cookie consent banner message.

**Banner Width** - Set the width of the cookie consent banner message on the page (does not work with **Position: bottom center**).

You can enter the width in the following formats: "100", "100px", "100%".

**Banner Background Color** - Choose the background color of the cookie consent banner message.

**Banner Shadow Color** - Choose the shadow color of the cookie consent banner message.

**Cookie message label** - Set your own headline for the cookie consent banner message (supports multi-language).

**Cookie message** - Set your own message for the cookie consent banner message (supports multi-language).

**Cookie Info Link** - Add your own privacy policy page link.

**Cookie Info Label** - Set your own label for the information button on the cookie consent banner message (supports multi-language).

**Info Background Color** - Choose the background color of the information button on the cookie consent banner message.

**Info Shadow Color** - Choose the shadow color of the information button on the cookie consent banner message.

**Cookie Accept Label** - Set your own label for the accept button on the cookie consent banner message (supports multi-language).

**Accept Background Color** - Choose the background color of the accept button on the cookie consent banner message.

**Accept Shadow Color** - Choose the shadow color of the accept button on the cookie consent banner message.

You can also click "**Get Default Color**" to set the default colors.
