To edit any of the four code fragments, follow these steps:

1. Select the corresponding menu option for the fragment you want to edit. For example, choose "Client Area Head" to edit the code displayed in the header of the client area.
2. Enter the desired text or HTML code that you want to be displayed in the selected section.
3. Click the "Save" button to save your changes.

Repeat these steps for each fragment you wish to edit: "Client Area Footer," "Admin Area Head," and "Admin Area Footer."
