

Safe test

PUQ Customization module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

The screenshot shows the WHMCS interface for the 'Safe test' module. On the left is a sidebar menu with options like Home, Auto CC Management, Cancel Fund Invoices, Configuration, Safe test, Client Data Archive, Clients Only Access, Credit Management, Disabler of standard elements, Export JPK, GDPR Tools, Head/Footer Output, Maintenance Mode, Menu Manager, Overwrite Suspend/Termination, Pages Manager, and Prorated Next Due Date. The main content area is titled 'Safe test' and includes a 'Cancel Fund Invoices' link with an information icon. Below this are two tables:

Invoices for cancel (with a 'Run action Cancel' button):

ID	Invoicenum	Date	Due date	Subtotal	Tax	Total	Status	Type	Client
465		2023-05-01	2023-05-17	\$0.24	\$0.00	\$0.24	Unpaid	AddFunds	Ruslan Polovyi TEST sp. z o. o.

Invoices for delete (with a 'Run action Delete' button):

ID	Invoicenum	Date	Due date	Subtotal	Tax	Total	Status	Type	Client
410		2023-05-12	2023-05-12	100.00 EUR	0.00 EUR	100.00 EUR	Cancelled	AddFunds	Dmytro Kravchenko

On the **"Safe Test"** page, you have the following options and actions available:

Preview Queued Invoices: This option allows you to view the invoices that are currently queued for cancellation or deletion without enabling the extension. It provides a list of invoices that are awaiting the action.

Manual Cancellation: If you want to manually initiate the cancellation of invoices from the previewed list, there is a corresponding button available. By clicking this button, you can manually cancel the selected invoices.

Manual Deletion: Similarly, if you wish to manually initiate the deletion of invoices from the previewed list, there is a separate button provided. Clicking this button will manually delete the selected invoices.

These manual actions provide you with control over the cancellation and deletion processes, allowing you to review the queued invoices and to do process manually, without enabling the extension in automated mode.
